## RECEIVER'S THIRD INTERIM STATUS REPORT

John Lewis, Jr. ("Receiver"), the court-appointed Receiver for Mauricio Chavez ("Chavez"), Giorgio Benvenuto ("Benvenuto"), CryptoFX, LLC ("CryptoFX") and CBT Group, LLC ("CBT"), pursuant to the Order Appointing Receiver ("Receivership Order") (Doc. No. 11) files his Third Interim Status Report ("Report"), showing the Court as follows:

## I. EXECUTIVE SUMMARY

1. In the ninety days since the filing of the Second Interim Report, the Receiver and his team have continued the investigation of the case, which included analysis of thousands of pages of company records, including Salesforce data; forensic analysis of financial records, including cryptocurrency transactions, and third-party records; taking depositions and interviews with CryptoFX former employees and sponsors/leaders and collection of documents in their possession; conducting interviews with CryptoFX investors and/or their counsel and collection and review of documents obtained from investors; inspection of Chavez's apartment and other
residence; analysis of receivership assets and sale of the same, both real and personal property; maintaining and updating the Receiver's website; and monitoring of media coverage of this case.
2. It is clear from deposition testimony, interviews with former employees, leaders, investors, and from the company documents, financial records as well as cryptocurrency records, that Defendants were operating a Ponzi scheme, where previous investors were paid with funds collected from newer investors. The Salesforce data obtained by the Receiver shows that CryptoFX and the company raised over $\$ 300$ million from over 40,000 investors from around the country.
3. Additionally, while the majority of investments as well as payments of returns on CryptoFX contracts were made in cash, many investors paid and were paid in cryptocurrency. The current investigation of the available cryptocurrency transactions conducted by BlockTrace, the third party engaged by the Receiver to assist with cryptocurrency transaction tracing, has revealed that even though Defendants raised over $\$ 300$ million in investor funds, their profit from cryptocurrency trading was minimal and woefully insufficient to pay the promised $15 \%$ monthly returns as well as the commissions and bonuses to sponsors/leaders.
4. In addition to Ponzi payments, commissions and bonuses paid to sponsors, the records further show that investor funds were improperly diverted.

## II. INTRODUCTION

5. The Receiver filed his First Interim Report on November 28, 2022 (Doc. No. 33) and his Second Interim Status Report on January 31, 2023 (Doc No. 50). This Third Interim Status Report is being submitted in accordance with the Receivership Order $\mathbb{I}$ 52-53. The Receiver’s First and Second Interim Status Reports and the exhibits thereto, are available for all investors on
the Receiver's website at https://cryptofxreceiver.com/case-documents.aspx. This Report covers the period between January 1, 2023 (the filing of the Second Report) to March 31, 2023.
6. This Report is based upon the continued investigation of the case conducted by the Receiver and his team, which has included motion practice; sale of receivership assets, both real and personal property; listing of additional personal property for sale; witness deposition and interviews; collection of documents from CryptoFX leaders and former employees; forensic analysis of financial records, including cryptocurrency records; review of CryptoFX documents maintained by the Defendants and obtained from investors, employees, sales agents, and third parties; inspection of Chavez's apartment and other residence; communications with investors; and monitoring of media coverage of this case.
7. The Report includes (a) a general summary of the work done since the Second Interim Report by the Receiver and his team; (b) cash on hand and estimated accrued expenses as well as schedule of receipts and disbursements; (c) description of all known receivership property; (d) description of liquidated and unliquidated claims; (f) list of all known creditors; and (g) Receiver's proposed plan for administering the Receivership.
8. The Receiver will provide further quarterly reports as provided for in the Receivership Order. Id. at $9[I[52-53$.

## III. SUMMARY OF RECEIVERSHIP OPERATIONS

9. During the period covered by this Report, the Receiver and his team continued to analyze CryptoFX business documents (both paper and electronically stored) as well as documents produced by CryptoFX employees, sales agents, cryptocurrency platforms or exchanges, financial institutions, title companies, and other third parties.
10. As stated in the Receiver's First Status Report, the Receiver has uncovered forensic evidence indicating that the Defendants raised over $\$ 300$ million from over 40,000 investors from several states. See Analysis by Gregory Hays, attached as Exhibit A to Receiver First Interim Report (Doc. No. 33).
11. Since the filing of the Second Report, the Receiver's team deposed another CryptoFX employee, Tony Lemus, and has interviewed many CryptoFX former employees, sponsors/leaders, and investors, and collected CryptoFX business records in their possession.
12. During the relevant time period, the Receiver continued to issue third-party subpoenas for the collection of documents and information to additional financial institutions, cryptocurrency platforms, title companies, and other fact witnesses. As of the filing of this Report the Receiver has issued 82 subpoenas.
13. Further, the Receiver obtained access to the CryptoFX Salesforce account, a customer management platform used by CryptoFX to record investor data, including amounts invested and paid out to investors. This information is critical in determining the amount of Ponzi payments made to investors and the commissions paid to sponsors.
14. The Receiver avers that the commissions and bonuses paid to all sales agents/sponsors/leaders were unlawfully obtained from investors by means of artifice and fraud. Therefore, sales commissions and bonuses paid to sponsors should be turned over to the Receiver. The Receiver has identified approximately 100 key sales agents/leaders for CryptoFX, located primarily in Texas, Illinois, Louisiana, California, and Florida. The Receiver sent demand letters to them requesting an accounting of all monies received from CryptoFX in the form of commissions, bonuses, and Ponzi payments so the Receiver could prepare an IRS W9 form, return of all CryptoFX documents as well as return of all CryptoFX assets, including cash in their
possession. Several of the leaders have responded to the Receiver's demand letter and turned over documents in their possession, including CryptoFX accounting spreadsheets used by them to record new contracts, payments to sponsors, payments to earlier investors, and the balance sent to CryptoFX main office in Houston.
15. Requests for production of documents and information were also sent to all known CryptoFX and CBT employees, several of whom have sent documents in their possession and agreed to interviews with the Receiver's counsel.
16. The Receiver was informed by investors that certain CryptoFX leaders were continuing to communicate with investors on behalf of CryptoFX promising payments on their contracts and also misleading them about filing a complaint with the Receiver and SEC. The Receiver sent cease and desist letters to these leaders.
17. On February 9, 2023, counsel for the Receiver, Greg Hays of the Receiver's team, and counsel for SEC, attended a meeting via Zoom with Santa Monica, CA community members who had invested in CryptoFX.
18. In addition to some of the devices seized from the CryptoFX offices, ${ }^{1}$ the Receiver has imaged an additional laptop turned over by a former CryptoFX employee. An updated list of the CryptoFX electronic devices the Receiver has seized is included herein as Exhibit A.
19. On January 20, 2023, the Receiver filed his Liquidation Plan. (Doc. No. 47).
20. During the deposition of a CryptoFX employee, the Receiver identified an additional CryptoFX cryptocurrency wallet operated by Julio Taffinder to make Ponzi payments to investors at the direction of Chavez. This Exodus wallet contained various crypto coins. The
[^0]Receiver liquidated the account and funds were transferred into the CryptoFX trust account in April 2023.
21. The Receiver had previously retained Mark Dimas Properties, a real estate broker, to assist with the marketing and sale of Receivership real estate assets. During the relevant period, the Receiver sold a property located at 0 Hogan Lane, Hempstead, TX 77445. See Order Approving Sale of Real Property (Doc. No. 57). The estate's proceeds from the sale of Hogan Lane property were $\$ 64,758.11$. See Master Statement of the Sale of 0 Hogan Lane, Hempstead, TX, attached as Exhibit B.
22. In addition, the Receiver has retained Appraisal Management and Compliance (Appraisal MC), MB Lane \& Associates, Inc., and Scott Stephens \& Associates to conduct appraisals of Receivership real property consisting of 25.1320 acres located on Mack Washington Rd., Hempstead, TX 77445. This property was purchased by CBT in November 2021 for $\$ 2,050,000.00$. However, the independent appraisers employed by the Receiver, MB Lane \& Associates, Inc. and Scott Stephens \& Associates, appraise the property at $\$ 1,080,000$ and $\$ 1,150,000$ respectively. See attached MB Lane \& Associates, Inc. Appraisal Report, attached as Exhibit C; Scott Stephens \& Associates Appraisal Report attached as Exhibit D. The Receiver intends to list this property for sale in the next 30 days.
23. The Receiver had previously retained Michael Poutous Auto Sales to market and sell receivership automobiles, including a 2020 Volkswagen Tiguan, 2022 BMW X6 M50i, and 2021 Mercedes-Benz GLE Hybrid SUV. The Court granted the Receiver's Motion to approve the sale of personal property relating to the Tiguan, (Doc. No. 67) as well as the sale of Chavez's Mercedes and BMW (Doc. No. 70). The Receiver has concluded the sale of the Tiguan and is awaiting final documentation on the same. Additionally, the Receiver is currently in negotiations
for the sale of the BMW. The Mercedes is still listed for sale. ${ }^{2}$ See Order Approving Sale of the BMW and Mercedes (Doc. No. 70).
24. The Receiver employed Webster's Auctions, a professional appraiser/auctioneer, to conduct the inventory of the personal property at Defendant Chavez's residence and the sale of certain receivership personal property. On January 5, 2023, the Receiver, together with undersigned counsel, counsel for Chavez, and Webster Auctions, inspected Chavez's residence. An inventory of the items found at Chavez's residence was prepared by Webster's. The Receiver has requested turnover of some of this property and plans to list these items for sale in the next 30 days.
25. On December 27, 2022, the Receiver filed a Motion to Show Cause why Defendant Mauricio Chavez should not be held in civil contempt for failing to comply with this Court's September 29, 2022 Receivership Order (Doc. No. 27). Chavez filed his Response on January 17, 2023 (Doc. No 45); the Receiver filed his Reply in support of the Motion on January 27, 2023 (Doc. No. 49); and Chavez filed a Sur-Reply in opposition of the Motion on February 06, 2023 (Doc. No. 51). Additionally, on March 15, 2023, Chavez filed a Motion for Attorney's fees (Doc. No. 61), which the Receiver opposed (Doc. No. 65). Oral argument on the Motion to Show Cause and Chavez's Motion for Attorney's Fees was held on March 23, 2023. The Court denied the Motion to Show cause without prejudice to filing a motion to compel. (Doc. No. 67). The Court granted Chavez's Motion for Attorneys' fees. The Court also allowed the Receiver's first interim fee application. Id.
26. Additionally, Chavez, through counsel, served discovery requests on the Receiver requesting access to all CryptoFX records in the Receiver's possession as well as records received

[^1]in response to third-party subpoenas. The Receiver has produced all CryptoFX Salesforce data as well as other documents requested by Chavez.
27. Pursuant to the Receivership Order II 56, the Receiver employed BlockTrace, LLC to serve as the Receiver's cryptocurrency consultants in this matter. The Court granted Receiver's Motion to Employ BlockTrace on January 6, 2023. (Doc. No. 43). Beginning in January 2023, BlockTrace began an extensive analysis of all the available cryptocurrency records. Currently, BlockTrace's analysis of these transactions shows that while CryoptoFX raised over \$300 million in investor funds, its profit from any cryptocurrency trading was only about $\$ 2.6$ million. BlockTrace's investigation of CryptoFX-related cryptocurrency transactions is ongoing and involves over 12,000 cryptocurrency transactions representing over $\$ 130$ million. This is a massive investigation involving over 6,800 cryptocurrency addresses and 70 different types of cryptocurrency. These are crypto accounts held at different platforms or exchanges by Chavez, CryptoFX leaders, as well CryptoFX investors who received CryptoFX Ponzi payments in cryptocurrency. In its investigation, BlockTrace has also identified accounts held at foreign exchanges (Binance and Switchain), which are not accessible from the US and require a Virtual Private Network (VPN) to access. The investigation is further complicated by the fact that some of the accounts identified by BlockTrace are self-custodial accounts, i.e. fully managed by the account holder and for which the cryptocurrency platforms or exchanges are not able to provide any information or transaction data. The Receiver is determining the cost/benefit of pursuing these and the foreign accounts and if the additional tracing will lead to a substantial recovery. While BlockTrace's tracing and analysis of these cryptocurrency transactions has been and continues to be time- and labor-intensive, the Receiver believes they are necessary in order to determine if any
funds are recoverable for the benefit of the estate. A full report of BlockTrace's extensive research will be filed before the Receiver's $4^{\text {th }}$ Interim Report is filed in July.
28. The Receiver and his team have continued to maintain and regularly update the Receiver's website (http://cryptofxreceiver.com/) with new court filings, media coverage, and other information pertinent to this case. The information, where possible, is provided in both English and Spanish. In addition, the website provides answers to frequently asked questions and access to the complete court docket with no PACER charges. The Receiver and his team are also working with KCC to optimize the website with key words for easier Google search by "investors" and others.
29. The Receiver's team also continues to monitor the Receiver's email and phone number, both of which are posted on the Receiver's website, for "investors"/victims to contact the Receiver and his team. As of the filing of this Report, the Receiver's team has received approximately 3,500 calls and emails from investors.
30. Public awareness of this case continues to grow. The Receiver's team continues to monitor the media coverage of this case, and links to news articles discussing this case have been posted on the Receiver's website as well. Currently, there are fourteen links to news articles and TV stories on the Receiver's website.
31. Additional work performed by the Receiver and his team since the filing of the Second Interim Report includes:
a. File with the Internal Revenue Service ("IRS") an additional request for extension of the deadline to submit W2 and 1099 forms for CryptoFX and CBT employees and contractors;
b. Registration of the Receivership Order in the US District Courts for the District of Massachusetts, Connecticut, Southern District of New York and Southern District of Florida;
c. Conducting public records searches and related due diligence to affiliated parties, entities, and other potential relief defendants;
d. Record lis pendens notices on additional real estate the Receiver believes are Receivership property.
32. As a result of these and other activities, the Receiver and his team believe that they have gained a good understanding of the facts and issues that will be most critical to the effective administration of this Receivership.

## IV. CASH ON HAND AND ESTIMATED ACCRUED ADMINISTRATIVE EXPENSES

33. On March 31, 2023, the Receivership Estate had the following cash on hand: $\$ 3,589,050$ deposited in four trust accounts named for each of the Defendants as of the end of the Application Period (March 31, 2022). These funds were received by (i) taking possession of cash located at the Defendants' office located at 1124 Blalock, Houston, Texas 77055 (\$53,345.56); (ii) taking possession of safes located at the Defendants' office (\$392,765.37); (iii) taking possession of First Community Credit Union bank accounts owned by Benvenuto (\$451,448.14); (iv) taking possession of Bank of America bank accounts owned by Benvenuto (\$21,325.14); (v) taking possession of a Simmons bank account owned by Benvenuto (\$80,763.55); (vi) taking possession of a Simmons bank account owned by CBT (\$247,916.46); (vii) taking possession of a Regions bank account owned by Chavez (\$781.62); (viii) proceeds from liquidating Coinbase, Inc. account (\$982,924.31); (ix) proceeds from liquidating Blockchain.com account (\$1,161,140.95); (x) taking possession of the balance of a retainer from Burford Perry LLC (\$155,631.00); (xx) taking possession of the balance of retainers from Gerger Hennessy \& Martin LLP (\$214,487.50); taking possession of the balance of retainers from Jones Walker LLP (\$102, 228.70); taking possession of CryptoFX funds turned over by Defendant Mauricio Chavez ( $\$ 55,000$ ); proceeds from
liquidating real property at 0 Hogan Lane $(\$ 64,758.11)$; and proceeds from liquidating televisions (\$3,040.00). See Schedule of Receipts and Disbursements, attached as Exhibit E.
34. All four Receivership trust accounts are held with Flagstar Bank, N.A., a whollyowned subsidiary of New York Community Bankcorp, Inc. The four trust accounts were previously held with Signature Bank, N.A., which was acquired by Flagstar in March 2023. Flagstar acquired all deposits of Signature Bank. All Receivership deposits are fully insured by the FDIC and the full faith and credit of the U.S. government up to $\$ 250,000$ and are fully collateralized and insured by a separate surety bond through the Receiver's banking vendor for any amounts above $\$ 250,000$. Additionally, Flagstar continues to be an approved depository by the U.S. Trustee in bankruptcy cases.
35. Other Assets: In addition to the cash on hand listed above, the Receiver has on hand the following assets. See also List of Receivership Liquidated and Unliquidated Assets, attached as Exhibit F.

| Asset | Estimated Amount/Value |
| :--- | ---: |
| 2021 Mercedes-Benz GLE AMG | $\$ 60,000$ |
| 2022 BMW X6 M50i (not fully paid off) | $\$ 30,000$ |
| 2020 Volkswagen Tiguan | $\$ 15,000$ |
| Various Laptops and desktop computers | $\$ 5,000$ |
| Real Property: Mack Washington, Hempstead, <br> TX | $\$ 1,080,000$ |
| Real Property: 28 Lawrence Marshall, Dr. <br> Hempstead, TX | $\$ 68,000$ |
| Bitcoin (BTC) | $\$ 14,031.12$ |
| Tether (USDT) | $\$ 62,923.86$ |
| Solana (SOL) | $\$ .10$ |

36. It is the Receiver's plan to prudently market real estate and other assets of the Receivership for the highest prices obtainable. The Court approved the Receiver's Motions to Approve the Sale of real property located at 0 Hogan Lane and 28 Lawrence Marshall Dr. (Doc.

Nos. 57, 62). The estate netted $\$ 64,758.11$ from the sale of Hogan Lane. The Receiver expects the sale of the Lawrence Dr. property to net a similar amount. (The lots are of a similar size and condition). Additionally, the Court granted the Receiver's Motion to approve the sale of personal property relating to Chavez's 2020 Volkswagen Tiguan, (Doc. No. 67) as well as the sale of Chavez's Mercedes and BMW (Doc. No. 70). The BMW was financed through Santander Consumer USA and has a current payoff amount of approximately $\$ 37,000$. The Receiver anticipates to net approximately $\$ 30,000$ from the sale of the BMW and approximately $\$ 60,000$ from the sale of the Mercedes.
37. The Receiver is continuing his investigation to locate additional assets of the Receivership Estate and will develop a distribution plan, subject to the Court's approval.
38. During the relevant period covered by this Report, the Receivership Estate has incurred administrative expenses in the amount of $\$ 23,623.19$ as a result of the efforts to marshal and preserve the assets of the Receivership. Of these expenses, $\$ 23,294.14$ were advanced by SHB, which constitutes a $\$ 20,634.60$ reduction from the $\$ 43,928.74$ actually incurred by SHB. Pugh Accardo incurred \$.30, and Hays and \$328.75 in administrative expenses during the relevant period. See Table describing administrative expenses incurred by the Receivership between January 1, 2023 and March 31, 2023, attached as Exhibit G.
39. The Receiver and the professionals working with him are well aware that the fees and expenses associated with the administration of the Receivership are paid from the assets of the Receivership Estate. The goal of all involved professionals is to conclude this Receivership as quickly and efficiently as can be reasonably accomplished thereby maximizing recovery to victims.
40. For the period Jan. 1, 2023 to March 31, 2023, the unbilled professional fees incurred are as follows: \$46,672.50 John Lewis, Jr.; \$323,534.50 Shook, Hardy \& Bacon L.L.P.; 1,079.5 Pugh Accardo, LLC; \$102,809.40 Hays Financial Consulting, LLC; and \$153,090.00 BlockTrace Inc. The Receiver's professional fees listed above have been reduced by $\$ 3,360.00$ from a total of $\$ 50,032.50$. Further SHB's fees have been reduced by $\$ 39,907.50$ from a total incurred fees $\$ 363,442.00$.
41. Additionally, during the period covered by the Report, several members of the Receiver's team have worked approximately 135 hours recording emails and communications from investors; translating emails and calls from investors from Spanish to English; assisting during interviews with CryptoFX employees and investors; maintaining intake spreadsheets; assisting with subpoenas and recording of lis pendens notices; research of third party assets; as well as other tasks. The standard SHB rate for these services is $\$ 350 /$ hour. In addition to the reduction of his fees and those of SHB as stated above, as well as the reduction in the expenses incurred by SHB, for the benefit of the investors in this case, the Receiver has not billed the estate for these additional services performed by his team.
42. As provided for in the Receivership Order, the Receiver and the professionals working with him will apply to the Court for approval to pay professional fees and expenses.
43. The Receiver advises that administration of the estate is expensive because there has been little cooperation from Chavez (See Receiver's Motion for Show Cause and Motion to Compel), the lack of a centralized accounting system, cash-based transactions, and the geographic scope, complexity, and financial impact of the fraud.

## V. SCHEDULE OF RECEIPTS AND DISBURSEMENTS

44. As of the filing of this Report, no disbursements to "investors"/victims or creditors have taken place. For a more detailed description of Receivership receipts, see supra, Section IV, II 33.

## VI. DESCRIPTION OF ALL KNOWN RECEIVERSHIP PROPERTY

45. At this preliminary stage, the Receiver estimates a total of $\$ 9,464,511$ in known liquidated and unliquidated Receivership assets. For a more detailed description of currently known Receivership property and corresponding approximate value, see supra, Section IV, III 33, 35-36.
46. It is the Receiver's plan to prudently market and sell the real estate and other assets of the Receivership for the highest prices obtainable. All sales of real estate must be approved by the Court, following a motion to the Court and hearing, if necessary. See Receiver's Liquidation Plan (Doc. No. 47).
47. The Receiver and his team's investigation is continuing; however, the investigation shows additional Receivership property held by third parties. The Receiver plans to seek a turnover of all of these assets and also move for the expansion of the Receivership Order to include other persons and/or entities known to hold Receivership assets.
48. Depending on the equity in each of the properties, appropriate action will be taken to either sell, hold, donate, or abandon properties in order to maximize the return of cash to the estate. It is too early to tell at this time what price the assets will sell for, the relative costs associated with the sales, or the potential recovery benefit to the Receivership estate.

## VII. DESCRIPTION OF LIQUIDATED AND UNLIQUIDATED CLAIMS

49. This Ponzi scheme was primarily a cash-based scheme, and it is going to require significant resources to unravel the claims of the Receivership estate. A review of the available records indicates that the majority of the investments were paid in cash.
50. The Receiver will have substantial claims for bonuses and commissions for a large number of third parties and is evaluating collectability from these parties. The Receiver team continues to research additional claims against third parties.

## VIII. LIST OF ALL KNOWN CREDITORS

51. At this preliminary stage, the only known commercial creditor is BZO Custom Wheels, LLC, the landlord of the CryptoFX's offices on Blalock ("Landlord"). Landlord has an unliquidated claim for approximately $\$ 20,239.18$ against the Receivership estate, which includes rent and utility bills. The Receiver and his team negotiated the sale of certain Receivership personal property at Blalock to set off Landlord's claim, bringing the final settlement amount to $\$ 17,209.18$. The Receiver's team also negotiated and the Landlord agreed to terminate the lease on October 31, 2022, although the Receiver vacated the premises of the Blalock office on December 7, 2022.
52. The Receiver is not aware of other commercial creditors at this stage.

## IX. RECEIVER'S PROPOSED PLAN FOR ADMINISTERING THE RECEIVERSHIP

53. The Receiver recommends the continuation of the Receivership.
54. The Receiver's key focus for the next 90 days will be on the following tasks:

- File Motion to Compel against Chavez to request turnover of CryptoFX business records, records related to other businesses in which he has an interest and electronic devices in his possession
- Review documents collected from CryptoFX employees, sponsors, and other third parties
- Review data and documents from Salesforce
- Determine other third parties who may possess relevant information and/or documents and serve additional freeze letters and subpoena such records and witness testimony, including from CryptoFX former employee and/or agents
- Trace funds to locate additional assets
- Determine commissions paid and if those will be pursued
- Determine Net Winners
- Develop electronic claim form for investors
- Establish claims verification process
- Continue working with realtors and appraisers to sell the real properties
- Determine resale value of personal property and the appropriate method of sale in order to maximize the benefit to the Receivership estate
- Continue communications with sales agents and "investors" and/or their counsel
- Depose or interview additional CryptoFX and CBT employees and sales agents
- File motions for turnover of Receivership assets
- Continue to efforts to identify additional relevant cryptocurrency wallets and trace distributions through cryptocurrency
- Investigate issues on the purchase of hundreds of thousands of dollars of Money Orders.

55. In addition, the Receiver and his counsel will continue to determine whether there are claims against third parties that could result in meaningful recovery to the Receivership Estate.
56. The Receiver also intends to file a motion to expand the Receivership estate to include individuals and entities that hold Receivership assets and/or funds.
57. Further, the Receiver and his team will continue to conduct a factual and legal analysis of issues that could affect whether tracing should be applied to certain investments. Based on the information and documents reviewed to date with estimated 40,000 investors and over \$300 million in investments, with the majority of that in cash, some payments in cryptocurrency, and other in money orders, a complete tracing of investments may not be possible and/or practicable.
58. In addition to analyzing the sources and uses of cash, the Receiver and his team will continue to analyze transactions through the Defendants' cryptocurrency and bank accounts. The Receiver is in possession of transaction reports from Coinbase, Blockchain.com, Binance,

Exodus, and Block, Inc., which appear to be the primary cryptocurrency platforms used by the Defendants and leaders, as well as the Defendants' bank account records.
59. To date, the Receiver has not located a set of books and records that tracked CryptoFX's cash, banking, investments and investor activity. Instead, the transactions are scattered among various reports, which must be analyzed by the Receiver's team and compiled to complete the Receiver's analysis. If the Receiver is unable to locate a set of books or transaction ledgers, the funds tracing analysis may be a lengthy manual process.
60. At this early stage, it is difficult to predict how long it will take for the Receiver to complete his work. As the Receivership moves forward, the Receiver and his team will continue their efforts to most efficiently recover and realize the value of assets for the benefit of the Receivership Estate.

Respectfully submitted,
SHOOK, HARDY \& BACON L.L.P.

## SEC v. Chavez et al.: SUMMARY OF DATA COLLECTION AND DEVICES

The chart below describes the devices collected from CryptoFX LLC's offices at Blalock, the location of the device and the corresponding size of files and file count. The red cells show the devices protected by passwords or encrypted, and from which the data has not yet been collected. The chart also lists devices turned over by CryptoFX employees or sponsors.

| Device | Device SN | Physical inspection Notes | Location of the Device | Collection Date | Image <br> Size | File <br> Count |

## AN APPRAISAL OF

Mack Washington Road Land, located at 23000 Block of Mack Washington Road,

Hempstead, Waller County, TX 77445
File \#: 230310011

## PREPARED FOR:

Shook, Hardy, \& Bacon, L.L.P. 600 Travis Street, Suite 3400 Houston, TX 77002

Date of Value "As Is":

Date of Report:

April 12, 2023
April 18, 2023

## BY

MB LANE \& ASSOCIATES, INC.
8990 Hempstead Highway, Suite 102
Houston, Texas 77008
(File No. 23061)

April 18, 2023
Shook, Hardy, \& Bacon, L.L.P.
600 Travis Street, Suite 3400
Houston, TX 77002
Reference: Mack Washington Road Land: A appraisal of vacant land totaling 25.1320 acres ( $1,094,750$ square feet). The subject property is located along the south line of Mack Washington Road, north of FM 1488, in the 23000 Block of Mack Washington Road, Hempstead, Waller County, TX 77445. File \#:230310011

To Whom It May Concern:
In compliance with your request, we visited the above-referenced property, and appraised it as of April 12, 2023, which is the date of our physical viewing of the subject property. The purpose of this report is to provide an opinion of the Market Value of the Fee Simple Estate of the above referenced property. This is an appraisal report as defined by USPAP.

The property rights appraised in this report is the Fee Simple Estate. The persons involved in preparing this appraisal report are Michael B. Lane, MAI and Gary Jones. We are providing a value opinion based upon a one year exposure period. Please review our "Contingent and Limiting Conditions", as our value is subject to these provisions.

Market Value, as further defined in this report, is the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeable, and assuming the price is not affected by undue stimulus.

According to the client, the subject property has been seized by the federal government for fraudulent activity. The client requested that the entire site be viewed to determine if there were any structures or improvements on the subject property. Gary Jones met Mr. Kelsey Morris, who is a realtor and the property contact provided by the client, at the subject property on April 12, 2023 at 10:00am. Mr. Morris and Gary Jones physically drove the entire property, and the only improvements observed was a water well at the northeast corner of the subject tract. There was a wildlife watering station and a turkey feeder as well, but these are considered to be personal property. The subject is essentially unimproved vacant land.

We have prepared an appraisal report and have utilized the sales comparison approach to value the subject site "As Is". Prior to accepting this assignment, the appraisers concluded that they have the necessary experience and/or knowledge to competently complete the appraisal, and during the preparation of the appraisal, the appraisers have not discovered any areas in the assignment requiring appraisal expertise in which we were lacking.

Shook, Hardy, \& Bacon, L.L.P.

The above statements of appraiser competency applies to knowledge and/or experience for the real estate appraisal discipline and not other areas of trades, professions or disciplines such as engineering, surveying, law, etc.

Our property inspection did not reveal, nor did we observe, or are we aware of any natural, cultural, recreational, environmental, or scientific value influences affecting the subject property. Additionally, we have not made a specific Americans with Disabilities Act (ADA) compliance survey and analysis of this property to determine whether or not it is in conformity with the various detailed requirements of the ADA. The value estimate is predicated on the assumption that no such influences are present that would affect our value conclusions. We have no expertise in these fields and no responsibility is assumed for any such conditions or for any expertise, engineering or other special knowledge required to discover them. Such studies are required before these values can be relied on by readers of this report.

To the best of our understanding this report conforms to the provisions of FIRREA, as well as the Uniform Standards of Professional Appraisal Practice adopted by the Appraisal Standards Board of the Appraisal Foundation.

Based on the physical characteristics of the property, as well as the current market conditions, it is the appraiser's opinion that the market value of the subject property is based on a 12 month exposure period. Our opinion of the Market Value of the Fee Simple Estate of the subject property "As Is", as of the effective date of April 12, 2023 is as follows:

## ONE MILLION EIGHTY THOUSAND DOLLARS $\$ 1,080,000$

## There are no hypothetical conditions or extraordinary assumption for this appraisal.

Your attention is now directed to the following report which contains the data and analysis used in our final value opinion. If after reviewing this report, you have any questions, please do not hesitate to contact this office.

Yours truly,

## CERTIFICATION

We certify that, to the best of our knowledge and belief:
(1) The statements of facts contained in this report are true and correct.
(2) The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions, and are our personal, impartial, and unbiased professional analyses, opinions, and conclusions.
(3) We have no present or prospective interest in the property that is the subject of this report, and no personal interest with respect to the parties involved.
(4) We have no bias with respect to the property that is the subject of this report or the parties involved with this assignment.
(5) Our compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
(6) Our engagement in this assignment was not contingent upon developing or reporting predetermined results.
(7) Our analyses, opinions, or conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice and the Code of the Professional Ethics of the Appraisal Institute.
(8) This report is subject to the requirements of the Appraisal Institute relating to review by its duly authorized representatives.
(9) Gary Jones has made a personal site visit to the property that is the subject of this report. Michael B. Lane, MAI, has not visited the subject property.
(10) No one provided significant real property appraisal assistance to the persons signing this report.
(11) As of the date of this report, Michael B. Lane, MAI, has completed the requirements of the continuing education program of the Appraisal Institute.
(12) As of the date of this report, Michael B. Lane, MAI is a Texas State Certified General Real Estate Appraiser, and Gary Jones is an Appraiser Trainee authorized by the State of Texas and has assisted Mr. Lane on properties similar to the subject property.

## CERTIFICATION (CONTINUED)

(13) This appraisal assignment was NOT based on a requested minimum value, a specified valuation, or the approval of a loan.
(14) Michael B. Lane and Gary Jones have not performed any valuation services, as an appraiser or in any other capacity, for the same client nor other clients, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.
(15) The "As Is" market value of the Fee Simple Estate of the subject property, as of April 12, 2023, is as follows:
\$1,080,000

There are no hypothetical conditions or extraordinary assumption for this appraisal.

## SUMMARY OF SALIENT FACTS AND CONCLUSIONS

Identification

Client:
File Number:

Location

Purpose of the Appraisal

Property Right Appraised
Land Size
Improvements

Mack Washington Road Land.

Shook, Hardy, \& Bacon, L.L.P.
230310011

The subject property is located along the south line of Mack Washington Road, north of FM 1488. The subject property is located in the 23000 Block of Mack Washington Road, Hempstead, Waller County, TX 77445.

The purpose of this appraisal is to provide an opinion of the "As Is" market value of the herein legally described property.

Fee Simple Estate.
25.1320 acres ( $\pm 1,094,750$ square feet).

According to the client, the subject property has been seized by the federal government for fraudulent activity. The client requested that the entire site be viewed to determine if there were any structures or improvements on the subject property. Gary Jones met Mr. Kelsey Morris, who is a realtor and the property contact provided by the client, at the subject property on April 12, 2023 at 10:00am. Mr. Morris and Gary Jones physically drove the entire property, and the only improvements observed was a water well at the northeast corner of the subject tract. There was a wildlife watering station and a turkey feeder as well, but these are considered to be personal property. The subject is essentially unimproved vacant land.

## Highest and Best Use

As Vacant:

Zoning
Utilities:

Flood Plain

Agricultural/Residentia use.
AR - Agricultural/Residential District.
There was a private water well observed at the time of the site visit. It is unknown if there is a septic system.

According to the FEMA Flood Insurance Map 48437C0135F, published for Waller County and dated May 16, 2019, the subject property appears to be located Flood Zone X, which

## SUMMARY OF SALIENT FACTS AND CONCLUSIONS - CONTINUED

is an area determined to be outside the $0.2 \%$ annual chance flood (outside the 500 -year flood plain). This determination is made by graphic plotting only, and is not guaranteed. We recommend that a surveyor determine precise flood plain status for the subject site. A copy of a portion of the flood map is included in the addenda section of this report.

There are no hypothetical conditions or extraordinary assumption for this appraisal.

## CONTINGENT AND LIMITING CONDITIONS

This appraisal is subject to the following limiting conditions.
The legal description furnished to us is assumed to be correct. We assume no responsibility for matters legal in character, nor do we render any opinion as to the title, which is assumed to be good. Any existing liens and encumbrances have been disregarded and the property appraised as though free and clear under responsible ownership and competent management, unless otherwise indicated.

We have made no survey and assume no responsibility in connection with such matters. We believe the information in this report furnished by others to be reliable, but we assume no responsibility for its accuracy. This includes, but is not limited to, information obtained in regard to flood plains, wetlands, geological fault lines, sufficiency of public utilities, and land or surface subsidence. The construction and condition of the improvements mentioned in the body of this report is based on observation and no engineering study has been made, unless previously noted, which would discover latent defects. No certification as to construction or any of the physical aspects could be given unless a proper engineering study were made.

No fault line, flood plain, or subsidence study has been made by the appraisal firm and could be under taken only by a qualified engineering firm.

The distribution of the total valuation between land and improvements in this report applies only under the existing program of utilization. The separate valuations for land and improvements must not be used in conjunction with any other appraisal, and are invalid if so used.

We are not required to give testimony or attendance in court by reason of this appraisal with reference to the property in question, unless arrangements have been made previously.

Possession of this report or a copy thereof does not carry with it the right of publication. It may not be used for any purpose by anyone other than the addressee without the previous written consent of the appraiser.

Neither all, nor any part of the contents of this report shall be conveyed to the public through advertising, public relations, news, sales or other media, without the consent and approval of the author, particularly as to valuation conclusions, and identity of the appraiser or firm with which he/she is connected, or any reference to the Appraisal Institute, or the MAI designation.

This report is written in conformity with the professional standards of practice and code of ethics of the Appraisal Institute, the Uniform Standards of Professional Appraisal Practice and the rules of the Texas Real Estate Commission.

Unless otherwise stated in this report, the existence of hazardous substances, including without limitation asbestos, polychlorinated biphenyls, petroleum leakage, or agricultural chemicals, which may or may not be present on the property, or other environmental conditions, were not called to the attention of nor did the appraiser become aware of such during the appraiser's inspection. The appraiser has no knowledge of the existence of such materials on or in the property unless otherwise stated. The appraiser, however, is not qualified to test such substances or conditions. If the presence of such substances, such as asbestos, urea formaldehyde foam insulation, or other hazardous

## CONTINGENT AND LIMITING CONDITIONS - CONTINUED

substances or environmental conditions, may affect the value of the property, the value estimated is predicated on the assumption that there is no such condition on or in the property or in such proximity thereto that it would cause a loss in value. No responsibility is assumed for any such conditions, nor for any expertise or engineering knowledge required to discover them.

The appraiser represents that he/she is not an expert to appraise insulation or other products banned by the Consumer Products Safety Commission which might render the property more or less valuable. In connection with this appraisal, the appraiser has not inspected or tested for, nor taken into consideration in any respect the presence or absence of insulation or other said products increase or decrease in the value of the property from the value placed thereon by the opinion of the appraiser.

The Americans with Disabilities Act (ADA) became effective January 26, 1992. I (we) have not made a specific compliance survey and analysis of this property to determine whether or not it is in conformity with the various detailed requirements of the ADA. It is possible that a compliance survey of the property together with a detailed analysis of the requirements of the ADA could reveal that the property is not in compliance with one or more of the requirements of the act. If so, this fact could have a negative impact upon the value of the property. Since I (we) have no direct evidence relating to this issue, I (we) did not consider possible noncompliance with the requirements of ADA in estimating the value of the property.

It is understood that this assignment and the payment of our fee is not dependent or contingent upon any loan commitment, sale, trial outcome, receipts of funds by you, or any other condition or contingency.

The liability of MB Lane and Associates, Inc., its owner and staff, is limited to the Client only and to the amount of the fee actually paid for the services rendered, as liquidated damages, if any related dispute arises. Further, there is no accountability, obligation, or liability to any third party. If this report is placed in the hands of anyone other than Client, the Client shall make such party aware of all limiting conditions and assumptions of the assignment and related discussions. The Appraiser is in no way to be responsible for any costs incurred to discover or correct any deficiencies of any type present in the property; physically, financially, and/or legally. Client also agrees that in case of lawsuit (brought by lender, partner or part owner in any form of ownership, tenant or any party), Client will hold Appraiser(s) completely harmless from and against any liability, loss, cost or expense incurred or suffered by Appraiser(s) in any such action, regardless of its outcome.
"These reports may be relied upon by the CLIENT, in determining whether to make a loan evidenced by a note ("the Property Note") which is further secured by the Property. These reports may be relied upon by the purchaser or assignee of the Property Note in determining whether to acquire the Property Note or Interest therein. I addition, these reports may be relied upon by any rating agency involved in rating the securities secured by, or representing an Interest in, the Property Note. These reports may be used in connection with materials offering for sale the Property Note, or an interest in the Property Note, and in presentations to any rating agency. With respect to the foregoing, these reports speak only as of the Origination date of these reports unless specifically updated through a supplemental report."

## SCOPE OF WORK

Extent To Which The Property Was Identified We were not provided with a survey of the subject site. In lieu of this, we relied upon the Waller County Appraisal District records for the identification of the subject site. We have assumed this information to be accurate and reliable.

Extent To Which Tangible Property Was Visited In preparing this appraisal, we visited the subject property and viewed the site as vacant land. According to the client, the subject property has been seized by the federal government for fraudulent activity. The client requested that the entire site be viewed to determine if there were any structures or improvements on the subject property. Gary Jones met the property contact, Mr. Kelsey Morris, at the subject property on April 12, 2023 at 10:00am. Mr. Morris and Gary Jones physically drove the entire property, and the only improvements observed was a water well at the northeast corner of the subject tract. There was a wildlife watering station and a turkey feeder as well, but these are considered to be personal property. The subject is unimproved vacant land

We drove the immediate and general market areas. We visited the subject property in order to develop impressions of physical characteristics based on visual observations of apparent, not unapparent conditions. We are not engineers and are not qualified to the presence of wetlands and the like.

We are not qualified to detect or identify hazardous substances, which may, or may not, be present on, in, or near the subject property. The presence of hazardous materials may negatively affect market value. We have no reason to suspect the presence of hazardous substances, and we valued the subject assuming that none are present. No responsibility is assumed for any such conditions or for any expertise or engineering services of specialists for the purpose of conducting inspections, engineering studies, or environmental audits. While we refer to FEMA flood maps, we are not surveyors and not qualified to make flood plain determinations, and we recommend that a qualified party be consulted before any investment decision is made.

The Type And Extent Of Data Researched We conducted a search for sales of similar land tracts in the immediate area. Our data sources were our own internal files, the LoopNet and Costar data services. Our search for data concentrated on the subject's immediate market area, but because of the lack of sales, was expanded to include the entire Greater Houston Metropolitan market area. Our search for data extended back three years. We supplemented these sources with information from knowledgeable brokers, particularly those with listings in the immediate area.

Texas is a non-disclosure state. It is important that the intended users of this appraisal understand that in Texas, there is no legal requirement for grantors or grantees to disclose any information relative to a transfer of real property, other than the recording of the deed itself. In Texas, the deed contains no information about the transaction, including the purchase price. As a result, no data source provides absolute coverage of all transactions. It is possible that there are sales of which we are unaware. Our data sources provide all the data typically available to appraisers in the normal course of business.

## SCOPE OF WORK - CONTINUED

The Type And Extent Of Analysis Applied The value set forth herein this appraisal report was determined after application and analysis by the Sales Comparison Approach - Land. Given the subject is vacant land, we feel this approach is the only approach applicable to this assignment.

Significant Real Property Appraisal Assistance Provided No one provided significant real property appraisal assistance to the persons signing this report.

General This Appraisal Report has been prepared under Standards Rule 2-2(a) of an appraisal performed under Standards Rule 1 of the Uniform Standards of Professional Appraisal Practice (USPAP). The level of reporting in this appraisal report is considered to be between the minium level and the maximum level. It has been our intention to prepare this appraisal in conformity with the Uniform Standards of Professional Appraisal Practice (USPAP) of the Appraisal Foundation, and the Code of Ethics and the Standards of Professional Practice of the Appraisal Institute. Engineering studies, ADA determinations, surveys, title reports, flood plain determinations, and environmental audits are beyond the scope of work of this appraisal.

Purpose, Intended Use, and Users of the Appraisal The purpose of this appraisal is to provide an opinion as to the "As Is" Market Value of the herein legally described property. It is our understanding that the client intends to use this appraisal report for asset valuation purposes. The client also represents that the report will be used only representatives of Shook, Hardy, \& Bacon, L.L.P. for the purposes set forth above.

Fee Simple Estate Fee simple estate is defined by the Appraisal Institute The Dictionary of Real Estate Appraisal, $7^{\text {th }}$ Edition, copyright 2022, page 73, as being:
"Absolute ownership unencumbered by any other interest or estate, subject only to the limitations imposed by the governmental powers of taxation, eminent domain, police power and escheat."

Leased Fee Estate Leased Fee Estate is defined by the Appraisal Institute The Dictionary of Real Estate Appraisal, $7^{\text {th }}$ Edition, copyright 2022, page 105, as being:
"An ownership interest held by the lessor, which includes the right to receive the contract rent specified in the lease plus the reversionary right when the lease expires."

Property Rights Appraised The property rights being appraised in this report consist of the Fee Simple Estate of the subject property.

Date of the Appraisal Report The preparation of this appraisal report was completed on April 18, 2023.

Effective Date of the Appraisal The descriptions, analyses, and conclusions of this report for the subject property are applicable as of the effective date of April 12, 2023.

## SCOPE OF WORK - CONTINUED

Competency Statement. Prior to accepting this assignment, the appraisers concluded that they have the necessary experience and/or knowledge to competently complete the appraisal, and during the preparation of the appraisal, the appraisers have not discovered any areas in the assignment requiring appraisal expertise which they were lacking.

Type and Definition of Value The type of value necessary to produce a credible result in this assignment is market value, whereby the value is to be the most probable price in terms of cash. Market Value is defined by the Office of the Comptroller of the Currency (12 CFR Part 34) as follows:
"Market Value means the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeable, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

1. Buyer and seller are typically motivated:
2. Both parties are well informed or well advised, and acting in what they consider their own best interests;
3. A reasonable time is allowed for exposure in the open market;
4. Payment is made in terms of cash in U.S. Dollars or in terms of financial arrangements comparable thereto; and
5. The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale."

Market Rent Market Rent is defined by the Appraisal Institute The Dictionary of Real Estate Appraisal, $7^{\text {th }}$ Edition, copyright 2022, pages 116 and 117, as:
"The most probable rent that a property should bring in a competitive and open market under all conditions requisite to a fair lease transaction, the lessee and lessor each acting prudently and knowledgeably, and assuming the rent is not affected by undue stimulus. Implicit in this definition is the execution of a lease as of a specified date under conditions whereby:

- Lessee and lessor are typically motivated;
- Both parties are well informed or well advised, and acting in what they consider their best interests;
- Payment is made in terms of cash or in terms of financial arrangements comparable thereto; and
- The rent reflects specified terms and conditions typically found in that market, such as permitted uses, use restrictions, expense obligations, duration, concessions, rental adjustments and revaluations, renewal and purchase options, frequency of payments (annual, monthly, etc.), and tenant improvements (Tis)."

## SCOPE OF WORK - CONTINUED

Estimate of Exposure Time Exposure time may be defined as "the estimated length of time the property interest being appraised would have been offered on the market prior to the hypothetical consummation of a sale at market value on the effective date of the appraisal." Our value opinion is based upon a one year exposure period which is supported by the improved sale items included herein as well as discussions with a number of professionals involved in marketing and selling similar properties.

## FACTUAL DESCRIPTIONS OF THE PROPERTY

## IDENTIFICATION OF THE PROPERTY

The subject property is located along the south line of Mack Washington Road, north of FM 1488. The subject property is located in the 23000 Block of Mack Washington Road, Hempstead, Waller County, TX 77445. Please see the Waller County Tax Record in the addenda for the legal description of the subject property.

## PROPERTY HISTORY

According to the client, the subject property has been seized by the federal government for fraudulent activity. The client requested that the entire site be viewed to determine if there were any structures or improvements on the subject property. Gary Jones met Mr. Kelsey Morris, who is a realtor and the property contact provided by the client, at the subject property on April 12, 2023 at 10:00am. Mr. Morris and Gary Jones physically drove the entire property, and the only improvements observed was a water well at the northeast corner of the subject tract. There was a wildlife watering station and a turkey feeder as well, but these are considered to be personal property. The subject is essentially unimproved vacant land.

Based on the Waller Appraisal District records, the subject is currently held in the receivership of John Lewis, Jr., through a Final Summary Judgement dated September 29, 2022. Prior to the Final Summary Judgement, the subject was held in the ownership of CBT Group, LLC, who purchased the subject from Odis Styers on March 29, 2022 for a reported purchase price of $\$ 2,000,000$, or $\$ 79,580$ per acre, according to the property contact Mr. Kelsey Morris. Mr. Morris stated this was an off-market transaction. Based on our value "As Is" of the subject tract, this purchase price is well above market for unknown reasons and not considered to be reasonable. Odis Styers had held ownership in excess of the pervious three years. To the best of our knowledge, the subject has not been involved in any other transactions in the past three years.

## STATEMENT OF OWNERSHIP

According to information provided to us, as of the date of this appraisal, the subject property is currently held in the receivership of John Lewis, Jr., through a Final Summary Judgement dated September 29, 2022.

#### Abstract

AREA

Location. The subject property is located in Hempstead, approximately 40 miles northwest of the Central Business District of the City of Houston. On the following pages is the Moody's Analytics Houston-The Woodlands-Sugar Land November 2022 market report.

STRENGTHS \& WEAKNESSES

## STRENGTHS

Leadership in oil and gas technology supports technical and professional service jobs.
Significant trade and export links, owing to location on the Gulf coast of Texas.

## WEAKNESSES

" Unpredictable energy markets add to the economy's volatility.
Industrial diversity is lower than in other metro areas of comparable size.

| FORECAST RISKS |  |  |  |
| :--- | :--- | :--- | :--- |
| SHORT TERM |  | LONG TERM |  |
| RISK EXPOSURE <br> 2022-2027 | $\mathbf{2 7}$ | 1st quintile | Most=1 <br> Least=403 |

## UPSIDE

» Better than anticipated in-migration boosts personal services.
Mining and manufacturing rise faster than expected because of elevated oil prices.

## DOWNSIDE

Housing slows down more than expected due to rising mortgage rates.
Nonresidential building weakens more than expected due to the trend in remote working.

MOODY'S RATING
Aaa
COUNTY
AS OF MAR 17, 2017

Recent Performance. Houston-The Wood-lands-Sugar Land's economy is advancing strongly , with job growth in the past year 2 percentage points higher than the national average. Employment surpassed its pre-pandemic peak in April ahead of the U.S., which reached this milestone in July. Most private sector industries are growing faster than their respective national counterparts; construction, in particular, has proceeded at a double-digit pace. The local PMI has been in expansion mode for two years as of September. The declining unemployment rate is a percentage point higher than precrisis because the labor force has grown faster than the national average in the past year. Housing market data have weakened.
Mining and manufacturing. The energy industry will continue to support the local economy, but downside risks have increased. The West Texas Intermediate crude oil price has been exceptionally volatile in 2022; it jumped from $\$ 75$ per barrel in January to $\$ 120$ per barrel in March at the start of Russia's invasion of Ukraine and rose again in June when financial markets thought the EU would forbid the insuring of Russian oil tankers. However, as global energy demand showed signs of weakening, the price fell back into the $\$ 80$ per barrel range in September. The high level of uncertainty has caused the recovery in active Texas drill rigs to pause since midsummer at a level just below that in January 2020. Still, the increased drilling activity compared with 2021 has supported HOU's manufacturing sector. Much of this production is equipment, fabricated metal parts, and other supplies needed for exploration. Thus, industry employment is up 7\% year over year-nearly twice the national pace.
Residential construction. Homebuilding will weaken during the coming year, though longerterm prospects are more optimistic. House prices have stopped climbing after a year of strong
gains. Further, mortgage rates have risen to above $7 \%$, more than 3 percentage points higher than a year ago. Moreover, the combination of previous price increases and reduced credit availability has caused affordability to fall by $37 \%$, a bit more than the national decline. As a result, new permits for single-family homes have fallen sharply by more than $33 \%$ in just six months. In contrast, multifamily construction is still elevated. One driver is the reduction in single-family affordability, which has boosted rental demand; HOU's apartment vacancy rate is the lowest in five years. However, long term, single- and multifamily homebuilding will increase, lifted by above-average employment, population growth, and better affordability than in Dallas or Austin.
Professional services. The rebound in the energy industry will benefit a variety of business services. Professional services returned to the industry's precrisis level in June as demand for engineers and geologists increased. Additionally, the EU's need for natural gas has heightened demand for liquefied natural gas, driving gains in the distribution industry as HOU is a major terminal. Further, the banking requirements of the energy industry and the overall economy have lifted financial services employment. However, the latter industry is now at risk from the housing market decline.
Houston-The Woodlands-Sugar Land should outperform the nation over the coming year, led by manufacturing and business services, though weakening residential construction will be an offset. Longer term, the concentration of energy-related industries; robust population growth; and expansion in housing, transportation and distribution industries will help propel above-average gains for the metropolitan area.

## NEIGHBORHOOD ANALYSIS

A neighborhood is defined in The Dictionary of Real Estate Appraisal, Fifth Edition, copyright 2010, page 133 by the Appraisal Institute as follows:
"A group of complementary land uses; a congruous grouping of inhabitants, buildings, or business enterprises."

Neighborhoods may be devoted to such uses as residential, commercial, industrial, agricultural, and civic activities, or a mixture of these uses. Analysis of the neighborhood in which a particular property is located is important due to the fact that the various economic, social, political, and physical forces which affect that neighborhood also directly influence the individual properties within it.

Neighborhood Boundaries. The subject neighborhood generally includes central Waller County. It is bound by US Highway 290 to the north and FM 529 to the south, the Waller/Harris County line to the east and the Brazos River to the west. The neighborhood is located approximately 35-40 miles northwest of Houston's Central Business District.

Access and Transportation. Primary access to this area from the Houston Central Business District is via Interstate 10, U.S. Highway 90 or U.S. Highway 290. The neighborhood is approximately 35 miles northwest of the Houston Central Business District. The major north/south traffic arteries include Fm 359, FM 262, FM 1489, and FM 2855. The major east/west traffic arteries are Interstate 10, U.S. Highway 90 and U.S. Highway 290.

Area Development. Historically, land use within the neighborhood has been predominantly agricultural with commercial use located primarily within the incorporated areas of the neighborhood. However, commercial (mostly industrial) and residential development has been taking place within the unincorporated areas of the neighborhood in recent years. This development has occurred in this area due to the availability of vacant acreage and good accessibility to major roadways from this area including U.S. Highway 290, Interstate 10 and U.S. Highway 90. The area has positive influences from its proximity Interstate 10.

Industrial development in the neighborhood includes light industrial, manufacturing facilities, office/warehouses and heavy industrial facilities. Typical construction features include either metallic or tilt-wall construction. This activity is located primarily along U.S. Highway 90 and Interstate 10 just to the south of the subject neighborhood. The residential development is occurring to the northeast of the neighborhood closer to U.S. Highway 290. The neighborhood is approximately $30 \%-40 \%$ built-up with this number rising due to continued development.

Public Services. The subject is located in an unincorporated area of Waller County and receives water and sewer service from an on-site well and septic system. Other utilities include electricity and gas from Reliant Energy and telephone service from AT\&T.

Tax Jurisdiction. The neighborhood is located within the jurisdiction of Royal Independent School District, Waller County, Waller County Road and Waller-Harris ESD \#200.

## NEIGHBORHOOD ANALYSIS - CONTINUED

Conclusions. The subject neighborhood benefits from its accessibility to several primary roadways. There have been several new built-to-suit office/warehouse facilities constructed over the past several years most of which are located near Interstate 10 and U.S. Highway 90. An amount of new single-family residential development is to the northeast of the neighborhood in proximity to U.S. Highway 290. The near term is predicted to see stability for this area due to the recent downturns of the economy.

## ASSESSMENT AND TAXES

The Waller County Appraisal District (WCAD) maintains the following account number for the subject property: 257912 . The 2022 assessed value with an agriculture exemption and 2022 tax rates are calculated in the table below.

| 2022 Assessed Value |  |  |
| :---: | :---: | :---: |
| Land (No Ag Exemption) |  | \$1,094,750 |
| Ag Exemption |  | (\$1,092,860) |
| Land Value after Exemptions |  | \$1,890 |
| Improvements |  | \$0 |
| Final Assessed Value |  | \$1,890 |
| Taxing Jurisdiction | $\underline{\text { Tax Rate / \$100 }}$ | Tax Liability |
| Hempstead ISD | \$1.136700 | \$21 |
| Waller County | \$0.522593 | \$10 |
| City of Hempstead | \$0.552573 | \$10 |
| Waller County Farm to Market | \$0.025852 | \$0 |
| Waller County ESD \#200 | \$0.097426 | \$2 |
| Total | \$2.335144 | \$43 |

Based upon the above 2022 assessed value and tax rates, the ad valorem tax liability for the subject property is estimated to be $\$ 43$. This report is prepared under the assumption that there are no delinquent taxes as of the date of this report. We have verified whether there are any delinquent taxes affecting the subject property. The existence of such delinquent taxes could affect proceeds from any sale of the property.

## SITE DATA

An analysis of a site is particularly important in determining its highest and best use. We were not provided with a survey of the subject site. In lieu of this, we relied upon the Waller County Appraisal District records for the identification of the subject site. The following is a discussion of the most important factors of the subject site.

Location. The subject site is located along the south line of Mack Washington Road, north of FM 1488. The subject is located in the 23000 Block of Mack Washington Road, Hempstead, Waller County, TX 77445.

Physical Characteristics. The subject property is basically rectangular in shape. Since the Waller CAD plat maps do not list frontages, the amount of frontages is unknown. The subject has what appears to have a typical amount of frontage along the south line of Mack Washington Road, suggesting adequate access and visibility. Please reference the plat map aerial photograph following this section of the report, as well as the subject photographs in the addenda for a graphic understanding of the subject property.

Off-Site Improvements. At the subject site, Mack Washington Road are a two-way, two-lane, asphalt-paved secondary dead-end street with open ditch drainage.

Adjacent Land Use. Land uses immediately surrounding the subject include vacant land to the north, south, east, and west of the subject. It is noted that there is a small amount of industrial development along Mack Washington Road to the east and southeast of the subject, as well as a single-family residence to the north of the subject along Mack Washington Road.

Zoning and Restrictions. The subject site is located within the city limits of Hempstead, which has zoned that subject as AR - Agricultural/Residential District, which allows for agricultural or singlefamily residential uses only. To the best of our knowledge, the subject site is not affected by any deed restrictions which would adversely affect the subject property. Our value conclusion is subject to revision should any deed restrictions be present that are deemed detrimental to the subject property.

Easements. According to the information provided and our visual observation, there are typical utility easements located along the boundaries of the subject site. There do not appear to be any easements which effect development of the subject site.

Utilities/Services. There was a private water well observed at the time of the site visit. It is not known of the working condition of the well. It is unknown if there is a septic system. The subject is located within the city limits of Hempstead. Currently, the City of Hempstead does not have water or sewer services to the subject tract. Additional utilities include electricity and telephone services. Police and fire protection is provided by the City of Hempstead. The subject site is served by the Hempstead Independent School District, with schools of all levels located throughout the neighborhood.

Topography/Flood Plain. At the time of our site visit, the subject site appeared relatively level and well-drained. There do not appear to be any soil or subsoil conditions noted that would adversely

## SITE DATA - CONTINUED

affect construction as evidenced by the existing improvements, though it should be noted that we are not experts in soil engineering. According to the FEMA Flood Insurance Map 48437C0135F, published for Waller County and dated May 16, 2019, the subject property appears to be located Flood Zone X, whichis an area determined to be outside the $0.2 \%$ annual chance flood (outside the 500 -year flood plain). This determination is made by graphic plotting only, and is not guaranteed. We recommend that a surveyor determine precise flood plain status for the subject site. A copy of a portion of the flood map is included in the addenda section of this report.

Environmental. We were provided with an Environmental Assessment of the property, which has concluded that there are no recognized environmental conditions in connection with the subject property. This assessment revealed that there were. Upon our site visit to the property, we did not observe any hazardous contaminants that would be of concern. We are not experts in recognition and identification of hazardous waste and would recommend a Phase I Environmental Assessment be prepared to identify any such hazardous contaminants along the subject property and surrounding properties, if any.

Improvements. The subject is unimproved vacant land.
Conclusions/Analysis. The subject site contains a total of approximately 25.1320 acres (1,094,750 square feet) of land, which is suitable for a variety of uses. The subject is located outside the 500year a flood hazard area. The subject has what is considered to be a usable configuration, with a topography and flood plain location typical of properties in this area. On an overall basis, the subject is considered to be well suited for commercial retail use.

For further details as to the site configuration, please reference the following plat map and aerial photograph, as well as the subject photographs, flood plain map, and wetlands map located in the addenda to this report.

## ZONING

The subject site is located within the city limits of Hempstead, which has zoned that subject as AR Agricultural/Residential District, which allows for agricultural or single-family residential uses only. To the best of our knowledge, the subject site is not affected by any deed restrictions which would adversely affect the subject property. Our value conclusion is subject to revision should any deed restrictions be present that are deemed detrimental to the subject property.

## HIGHEST AND BEST USE

Fundamental to the concept of value is the theory of highest and best use. According to the Appraisal Institute The Dictionary of Real Estate Appraisal, $7^{\text {th }}$ Edition, copyright 2022, pages 88 and 89 , Highest and Best Use is defined as:
(1) "The reasonably probable use of property that results in the highest value. The four criteria that the highest and best use must meet are legal permissibility, physical possibility, financial feasibility, and maximum productivity."
(2) "The use of an asset that maximizes its potential and that is possible, legally permissible, and financially feasible. The highest and best use may be for continuation of an asset's existing use or for some alternative use. This is determined by the use that a market participant would have in mind for the asset when formulating the price that it would be willing to bid."
(3) "The highest and most profitable use for which the property is adaptable and needed or likely to be needed in the reasonably near future."

The procedure used in this report to estimate the highest and best use of the subject was to consider, in sequence, the site's legally permissible uses, the site's physically possible uses, the site's financially feasible uses, and finally, the optimum or highest and best use. Data collected and analyzed for purposes of the Neighborhood Analysis, and particularly the Site Data, was useful in arriving at a final decision.

There are four major criteria to be considered when analyzing the highest and best use of a property, vacant or improved. The criteria are that the highest and best use must be (1) legally permissible, (2) physically possible, (3) financially feasible, and (4) maximally productive. These criteria should usually be considered sequentially. We will examine the site's highest and best use as vacant land since the subject is vacant land.

## Highest and Best Use Analysis - "As Vacant"

Legally Permissible. Private (deed) restrictions, zoning regulations, building codes, historic district controls, and environmental regulations can often preclude a possible highest and best use. The subject site is located within the city limits of Hempstead, which has zoned that subject as AR Agricultural/Residential District, which allows for agricultural or single-family residential uses only. To the best of our knowledge, the subject site is not affected by any deed restrictions which would adversely affect the subject property. Our value conclusion is subject to revision should any deed restrictions be present that are deemed detrimental to the subject property.

Possible Use. The first constraint imposed on the possible use of the property is dictated by the physical aspects of the site itself. This includes such factors as size, shape, terrain, etc. In general, the larger the site, the greater its potential to achieve economics of scale and flexibility in development. The subject is located along the south line of Mack Washington Road, north of FM 1488, in Hempstead, Waller County, TX 77445. Overall, the subject tract could facilitate any possible uses.

## HIGHEST AND BEST USE - CONTINUED

A tract's topography and subsoil conditions are also important considerations in determining its possible uses. If a site's topography or subsoil conditions make utilization restrictive and costly, the site's potential future use is adversely affected. As mentioned previously in the "Site Data" section of this report, the subject is gently sloping and appeared to be well drained. In addition, there are no apparent soil or subsoil conditions which would adversely affect construction, as evidenced by nearby improvements.

The possible uses of a tract are also dependent upon the site's utility availability and capacity. If a site has no access to utility service and cannot acquire access, it is virtually impossible to develop. Of equal importance is a site's utility capacity. A tract which does not have, and cannot acquire, high density utility capacity is restricted from some commercial property uses. There was a private water well observed at the time of the site visit. It is not known of the working condition of the well. It is unknown if there is a septic system.

By virtue of its shape, topography and utility availability, the subject site lends itself to a wide variety of possible uses. Physically possible uses include residential, retail, industrial, or office development.

Financially Feasible Use. From a financial standpoint, any property use which is expected to produce a positive rate of return is regarded as being feasible. Factors dictating which property uses are feasible include those which determine the possible and legal uses as well as other important factors. These factors include the shape, frontage, and location of the tract; access to the tract; adjacent property uses (in the interest of conformity); and the general neighborhood characteristics. These factors, along with pertinent market information, help determine what returns could be expected from alternative property uses. Based on area development, we feel the most likely use of the subject tract would be for an agricultural or residential use, which we feel would be financially feasible.

Maximally Productive. Given the economic realities of the subject market and the physical characteristics of the subject site, the maximally productive use of the subject site is for an agricultural or residential use.

Highest and Best Use, "As Vacant". As noted by the above analysis, an agricultural or residential use is physically possible, legally permissible, and financially feasible use. Therefore, the highest and best use of the subject property, considering the subject's location, is an agricultural or residential use.

## MARKET APPROACH TO VALUE - LAND ONLY

In reaching the land value opinion of the subject property by the market data approach, we searched the County Deed Records for recent sales of comparable properties within this area. We also consulted real estate brokers and appraisers active in the area as to their knowledge of properties currently offered on the market for sale which would be in competition with the subject property.

We then investigated, analyzed and compared the available market data to the subject property, taking into prime consideration the various similar and dissimilar characteristics, including terms of sale, and made adjustments accordingly in reaching the value opinion of the subject property by the market approach.

The Sales Comparison approach involves comparing similar land sales to the site with adjustments for different characteristics. Several units of comparison are available to the appraiser; however, the primary unit of comparison in this report is the price per square foot. This unit is then applied to the subject property after adjusting the sales items for different characteristics. Our comparative analysis involves adjustments for property rights, financing, conditions of the sale, date of sale (market conditions), location, utility availability, flood plain status, zoning and other physical characteristics. Our research includes properties in the neighborhood of the subject. We have included, in our opinion, the most comparable sales of those uncovered in our survey.

The subject tract contains a total of 25.132 acres, or $1,094,750$ square feet of land. The land sales listed on the following pages were considered to be the most comparable to the subject of all those occurring in the area over the recent past.

The following is a listing of sales considered in our analysis of the subject property.

| 5 | 3/13/23 | 1.500 | \$225,000 | \$150,000 | E/L Post Oak Drive, just north of Highway 290 |
| 6 | UC | 7.410 | \$370,000 | \$49,932 | S/L Mack Washington Road, north of FM 1488 |
| Subj | N/A | 25.132 | N/A | N/A | S/L Mack Washington Road, north of FM 1488 |

As indicated in the "Site Data" section, the subject property contains approximately 25.1320 acres ( $1,094,750$ square feet). As can be referenced in the preceding chart, the land sales range in date of sale from June 2021 to a property under contract. The land sales range in size from 1.5000 acres to 27.7800 acres; and in sales price from $\$ 37,271$ to $\$ 150,000$ per acre.

When comparing these sales to the subject parcel, the factors considered to be the most critical were conditions of sale, financing terms, date of sale, size, location and access, physical characteristics, and utility availability. Each of the sales were compared to the subject property and adjusted on that basis. The following is a discussion of the comparisons used in our analysis.

Financing Terms. The transaction price of one property may differ from that of an identical property due to different financing arrangements. For example, a buyer may pay a higher price in a transaction which involves below market or favorable financing. Favorable financing can be in terms of a below market interest rate, a small down payment, an interest only loan, a non-recourse or limited liability loan, or a loan based upon the cash flow of the project. All of the sales in this report were cash to the seller, therefore no adjustments are deemed necessary.
Conditions of Sale. Adjustments for conditions of sale usually reflect the motivations of the buyer and the seller. Buyers or sellers acting under duress may cause a sale to be less representative of the

## LAND ANALYSIS AND VALUE INDICATION - CONTINUED

market. A financial, business, or family relationship between the parties may affect the price of a property. When non-market conditions of sale are detected in a transaction, the sale can be used as a comparable only with great care. The circumstances of the sale must be thoroughly researched before an adjustment is made. Although conditions of sale are often perceived as applying only to sales that are not arm's-length transactions, some arm's-length sales may reflect atypical motivations or sale conditions due to unusual tax considerations, sale at legal auction, lack of exposure on the open market, or eminent domain proceedings. If the sales used in the market approach reflect such situations, an appropriate adjustment must be made for motivation or conditions of sale. All sales had no special conditions and required no adjustments for this factor.

Market Conditions: Changes in market conditions may be the result of inflation, deflation, fluctuations in supply and demand, changes in highest and best use, or other factors. Although this adjustment is often referred to as a "time" adjustment, time is not the cause of the adjustment, but a reflection of shifts, or changes in market conditions. Therefore, if market conditions have not changed, no adjustment is deemed necessary, no matter how much time has elapsed. These adjustments are necessary to correct for changes in value over time due to market factors such as supply and demand, and economic factors such as inflation. Sales 1 and 2 were adjusted upward $6 \%$ for changing market conditions. Sales $3,4,5$, and 6 are considered to be reflective of current market conditions with the pandemic, and were not adjusted for this factor.

Location. The subject property is located along the south line of Mack Washington Road, north of FM 1488. The subject is an interior tract with frontage along Mack Washington Road. Land uses immediately surrounding the subject include vacant land to the north, south, east, and west of the subject. It is noted that there is a small amount of industrial development along Mack Washington Road to the east and southeast of the subject, as well as a single-family residence to the north of the subject along Mack Washington Road.

Sales 1 and 4 are located along FM 1488 just to the east of Mack Washington Road and Highway 290. Sales 1 and 4 are located superior in terms of visibility, traffic passage, and area development, and were adjusted downward $40 \%$ for this factor. Sale 2 is located along Highway 290 west of Hempstead, which is superior in terms of visibility and traffic passage, and was adjusted downward $30 \%$ for this factor. Sale 3 is inferior to the subject in terms of area development, and was adjusted upward $20 \%$ for this factor. Sale 5 is located superior in terms of area development, and was adjusted downward $15 \%$ for this factor. Sale 6 is located along the north line of Mack Washington Road just to the east of the subject, and was not adjusted for this factor.

Size. The subject site contains 25.132 acres, whereas the comparable sales range from 1.500 to 27.780 acres. In most areas of the Houston CMSA, smaller tracts of land sell for a higher price per unit than larger properties. This is due to the fact that purchases of large acreage tracts entail a much greater capital outlay. This restricts the number of possible buyers as compared to the relatively larger market for smaller tracts, which tends to disproportionately "bid up" the smaller tract's per unit prices. Sales $1,3,4,5$, and 6 are smaller and were adjusted downward $5 \%$ to $30 \%$ for this factor. Sale 2 is relatively similar in size as the subject and required no adjustment for this factor.

## LAND ANALYSIS AND VALUE INDICATION - CONTINUED

Corner/Frontage Influence. Properties which enjoy a corner location or have frontage along more than one roadway typically sell at a higher per unit value due to increased exposure and accessibility. The subject is an interior tract with frontage along a single public street. All sales are similar and were not adjusted for this factor.

Zoning. The subject property is located within the city limits of Hempstead, which has zoned the subject site as agricultural or residential uses. Sales $1,2,3,4$, and 6 were unrestricted to use and were not adjusted for this factor. Sale 5 is zoned Highway Commercial, and was adjusted downward $5 \%$ for this factor.

Site Characteristics. Properties which have very irregular shapes, are located in flood hazard areas with undevelopable portions or have undesirable topography tend to have lower values. The subject is rectangular in shape and is located outside the 500 -year flood plain. All sales are considered similar in regards to site characteristics, and required no adjustments for this factor.

Utility Availability. The availability of utilities is a major factor in the development of any property. If a site has no access to utility service and cannot acquire access, it is virtually impossible to develop. Therefore, the price paid for such a site would be affected due to its lack of utilities. In this case, an owner must make up the expense for acquiring the services and enhancing the site's value. The subject has a private water well and it is unknown if a private septic system is present. If not, a private septic system would be required. Sales $1,2,3,4$, and 6 are similar and were not adjusted. Sale 5 has public water and sewer, and was adjusted downward $20 \%$ for this factor.

## LAND ANALYSIS AND VALUE INDICATION - CONTINUED

The land sales adjustment grid below shows our adjustments as they pertain to the subject property:

| LAND SALES ADJUSTMENT GRID |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| SALE | 1 | 2 | 3 | 4 | 5 | 6 |
| PRICE/ACRE | \$87,859 | \$56,587 | \$37,271 | \$114,527 | \$150,000 | \$49,932 |

| MARKET CONDITIONS | 6\% | 6\% | 0\% | 0\% | 0\% | 0\% |
| TOTAL ADJUSTMENT | 6\% | 6\% | 0\% | 0\% | 0\% | 0\% |
| ADJUSTED \$/ACRE | \$93,131 | \$59,983 | \$37,271 | \$114,527 | \$150,000 | \$49,932 |
| SIZE (ACRES) | 6.260 | 27.780 | 13.415 | 17.463 | 1.500 | 7.410 |
| LOCATION | -40\% | -30\% | 20\% | -40\% | -15\% | 0\% |
| SIZE | -15\% | 0\% | -5\% | -5\% | -30\% | -15\% |
| CORNER/FRONTAGE | 0\% | 0\% | 0\% | 0\% | 0\% | 0\% |
| ZONING | 0\% | 0\% | 0\% | 0\% | -5\% | 0\% |
| SITE CHARACTERISTICS | 0\% | 0\% | 0\% | 0\% | 0\% | 0\% |
| UTILITIES | 0\% | 0\% | 0\% | 0\% | -20\% | 0\% |
| TOTAL PHYSICAL ADJ. | -55\% | -30\% | 15\% | -45\% | -70\% | -15\% |
| FINAL ADJ. \$/ACRE | \$41,909 | \$41,988 | \$42,861 | \$62,990 | \$45,000 | \$42,443 |

Land Value Conclusion. The sales within the Adjustment Grid have an adjusted sales price ranging from $\$ 41,909$ per square foot to $\$ 62,990$ per acre, with an average adjusted price of $\$ 46,950$ per acre. Removing the extreme high results in an average of $\$ 42,840$ per acre. Based on the above land sales analysis, and considering the subject's highest and best use, and location, it is our opinion that the market value of the subject is $\$ 43,000$ per acre. The "As Is" value of the Fee Simple Estate of the subject, is as follows:

| INDICATED LAND VALUE FOR THE SUBJECT "AS IS" (Fee Simple Estate) |  |  |
| :---: | :---: | :---: |
| Land Area / Acres | Indicated Value Per Acre | Indicated Land Value |
| 25.1320 | $\$ 43,000$ | $\$ 1,080,676$ |
|  | Land Value (rounded): | $\mathbf{\$ 1 , 0 8 0 , 0 0 0}$ |

## RECONCILIATION AND FINAL VALUE OPINION

The reconciliation involves weighing the value indications provided by each method in light of its dependability as a reflection of the probable actions of users and investors in the market place. The appraiser's final conclusion of value may coincide with one of the approaches or it may reflect a weighing of relative merits of each of the approaches in leading to a final conclusion. One method of property valuation is used in this appraisal and this final sector is the discussion of the value indication provided by this approach. Consideration of the relative merits of each value indication involves reviewing each approach with respect to: 1) reliability of the data used; 2) the applicability of the approach to the type of property being appraised; and 3) the applicability of the approach in light of the definition of value sought.

Final Value Opinion. The Market Approach to Value was utilized, which is the only applicable approach being the subject is vacant land. The final opinion of value must be based upon that confirmation of the available market data and analysis which is most appropriate. In our opinion, the Market Approach is well documented and supported by good market data. Thus, we have placed emphasis on this approach. It is our opinion the subject property, if properly marketed, could be sold within a 12 month exposure time. Our opinion of the Market Value of the Fee Simple Estate of the subject property "As Is", as of the effective date of April 12, 2023, is as follows:

## ONE MILLION EIGHTY THOUSAND DOLLARS \$1,080,000

There are no hypothetical conditions or extraordinary assumption for this appraisal.

## Additional Notes:

| Date | From | Message |
| :--- | :--- | :--- |
| 3/20/2023 | Bautista, Mayra | Good morning your conditions have been accepted. Please proceed and accept this <br> order in your queue. Thank you This property has been seized by the government. <br> 11:03 AM |
| There have been several cases of fraud associated with the property and an appraisal <br> is needed in order to sell the properties The lot SHOULD be empty but it could be <br> possible they contain structures, these structures are part of the fraudulence that is <br> being investigated. We need the appraiser to physically inspect the property and <br> confirm if anything is on the property. |  |  |

Note: This appraisal order is not transferrable to another appraiser. If the appraiser named on this appraisal request is unable to complete this assignment please contact Appraisal MC at 713-623-0559. All appraisers are approved on an individual basis, if this assignment is completed by another appraiser Appraisal MC will not be liable for any appraisal related service fee.

Commercial Order Form client

* If a client of Appraisal MC or lender makes contact with you directly, contact Appraisal MC immediately. Do NOT make contact with the client of Appraisal MC or lender directly unless otherwise specified in the order. Any contact outside of the Appraisal MC system may be cause for removal and forfeit of appraisal fee due to non-compliance with the appraiser agreement. All communication and reports must be sent through Appraisal MC only. Failure to comply with this request will result in this order being cancelled and payment for this order will be rescinded immediately.

Appraiser agrees not to directly or indirectly engage via communication or assignments with any of Appraisal MC's lender clients for a period of one year without written consent of Appraisal MC. Appraiser agrees to provide reasonable monetary damages for violation of this Agreement; and, that if monetary damages are calculable, monetary damages alone are inadequate as a remedy for such violation. Therefore, the parties agree that equitable remedies, including, without limitation, temporary restraining order and mandatory injunction enforcing specific performance, are and shall be proper remedies for violation of this Agreement. If suit is brought to enforce this Agreement, the winning party shall be entitled to receive, in addition to any actual damages, reasonable attorney(s) fees spent in the prosecution of such suit.

APPRAISAL MC RESERVES THE RIGHT TO DISCOUNT FEE OF PAST DUE REPORTS BY \$50 PER DAY IF NO NOTIFICATION IS RECEIVED. COMPLETED APPRAISALS MUST BE SUBMITTED BY 2 PM CST ON THE DUE DATE.

IF A RUSH/PRIORITY ASSIGNMENT IS NOT SUBMITTED ON OR BEFORE THE DUE DATE THE RUSH/PRIORITY ADDITIONAL FEE WILL BE FORFEITED.

ANY REVISIONS MUST BE SUBMITTED THE SAME BUSINESS DAY OTHERWISE THE ASSIGNMENT WILL BE CONSIDERED LATE.

## Trip Fee Policy:

Trip fees for scheduled appointments are not to exceed \$150 unless otherwise approved. A photo of the subject property with address must be provided for verification

Trip fees may be forfeited for the following reasons:

- If the assignment is not submitted on or before the due date and the order is cancelled due to appraiser delays.
- Cancelled orders not submitted on or before the due date
- Assignments that have been withdrawn from

## Cancellation policy:

Pre-Inspect: 0\%
Post-Inspect based on appt time in system: Fee not to exceed $\$ 150$ unless otherwise approved Completed report: 100\%

Cancellation fees may be forfeited for the following reasons:

- If the assignment is not submitted on or before the due date and the order is cancelled due to appraiser delays.
- Cancelled orders not submitted on or before the due date
- Assignments that have been withdrawn from

TEXAS APPRAISERS: If you are an appraiser licensed or certified in Texas you must accept the TALCB invite prior to accepting any assignments from Appraisal MC. Do not accept any assignments or begin work on any assignments and contact Appraisal MC immediately. Appraisal MC will not be responsible for any work completed by an appraiser not active on the Appraisal MC TALCB panel.

## APPRAISER CERTIFICATION OF TERMS AND STANDARDS OF ENGAGEMENT

The undersigned, an authorized representative of the below named appraiser, appraisal company, or appraisal management company (the "Appraiser") hereby acknowledges and certifies that the Appraiser has knowledge and experience in appraising this type of property in this market area and accepts this engagement to conduct an appraisal of the Subject Property in accordance with the Uniform Standards of Professional Appraisal Practice (USPAP) and in full compliance with the Dodd - Frank Act and all applicable state and federal laws and regulations. The Appraiser understands that the Client, a mortgage lender, has adopted a written Plan for Compliance with the Dodd - Frank Act, and that Client solely is authorized to engage and compensate the Appraiser for its appraisal services with respect to the Subject Property.

Upon completion of its services and rendering of its appraisal report on the Subject Property to Client, the Appraiser agrees to make a written certification in form acceptable to Client that the appraisal of the Subject Property was conducted in full compliance the Uniform Standards of Professional Appraisal Practice (USPAP), the Dodd - Frank Act, and all applicable state and federal laws and regulations, including the licensing or registration regulations of the state in which the Subject Property is located, and that no attempt was made by the Client or any third party to influence the valuation of the Subject Property through coercion, extortion, collusion, compensation, inducement, intimidation, bribery or in any other manner.

By accepting this assignment you hereby certify that you are properly licensed and/or certified to complete the property appraisal in this state and have geographic competency for the market. Geographic competency includes, but is not limited, to: knowledge of major employers in the area, knowledge of major recreational draws for the area, familiarity with the local school districts, awareness of all major access routes, knowledge of market area value trends and that you subscribe to relevant data sources including the multiple listing services of all markets. You agree to notify Appraisal MC immediately if you are asked to perform a valuation within an area in which you do not have sufficient knowledge to make an accurate valuation.

APPRAISER CERTIFICATION OF COMPLIANCE AND NON-COERCION<br>Regarding Appraisal of Subject Property located at:<br>MACK WASHINGTON, HEMPSTEAD, TX 77445

The undersigned, and authorized representative of the below named appraiser, appraisal company, or appraisal management company (the "Appraiser") conducting the appraisal of the Subject Property and preparing the Appraisal Report, hereby certifies that:

1. The Appraiser conducted the appraisal and prepared the Appraisal Report in full compliance with the Uniform Standards of Professional Appraisal Practice (USPAP), the Dodd - Frank Act and all applicable state and federal laws and regulations.
2. The appraisal of the Subject Property was conducted, and the Appraisal Report was prepared, by one, or more, qualified and duly licensed or certified real estate appraisers in compliance with applicable state and federal law.
3. The Appraiser conducting the appraisal of the Subject Property has knowledge and experience in appraising this type of property in the market area within which the Subject Property is located.
4. The Appraiser was not provided any predetermined or desired valuation of the Subject Property by the Client or any third party, except, if applicable, the Appraiser was provided a photocopy of any
 USPAP standards rule 1-5 (a).
5. The Appraiser was not influenced by the Client or any third party in determining the valuation of the Subject Property and no attempt was made by the Client or any third party to influence the valuation of the Subject Property through coercion, extortion, collusion, compensation, inducement, intimidation, bribery or in any other manner.
6. The Appraiser has adopted and enforces written policies and procedures implementing the Dodd Frank Act with respect to all its business activities. The Appraiser provides its officers, employees, and agents' adequate training on appraiser independence, including the principles set forth in the Dodd - Frank Act, and has mechanisms in place to report and discipline any of its officers, employees, or agents who violate its policies and procedures.
7. The Appraiser will include all requested revisions, reconsiderations of additional comparables and underwriting requests within 24 hours at no additional cost. If these items are not addressed and /or completed in a timely manner they will not be considered complete and Appraisal MC will not be financially responsible for the appraisal.
8. The Appraiser must be General Certified and meet all investor eligibility requirements in order to complete the appraisal.
9. Appraiser agrees to separately upload or not include the invoice in the report as part of the acceptance of the assignment.
10. Vendor shall be paid on the 30th of the month for the orders completed in the previous calendar month. (unless otherwise stated/specified by State appraisal management regulations) The appraiser may request to receive payment via ACH. Please contact accounting@appraisalmc.com to setup the ACH vendor payment. Otherwise, a check will be mailed to the address listed on the W9.

> This Certification of Compliance and Non-Coercion is cumulative of any other or additional certifications that may be set forth in the Appraisal Report and does not revoke, amend or modify the terms or standards of engagement with respect to the Appraisal Report. Any violations of AIR must be reported in writing immediately to supportapappraisalmc.com

* If a client or lender makes contact with you directly, contact Appraisal MC immediately. Do NOT make contact with the lender directly. Any contact outside of the Appraisal MC system may be cause for removal and forfeit of appraisal fee due to non-compliance with the appraiser agreement. All communication and reports must be sent through Appraisal MC only. Failure to comply with this request will result in this order being cancelled and payment for this order will be rescinded immediately.

Appraiser covenants and agrees that during the term of this engagement and for a period of one year after the expiration or earlier termination of the engagement, neither Appraiser nor any employee, affiliate, agent, or representative of Appraiser (each, a "Restricted Person") shall directly or indirectly, for itself or on behalf of another person or entity (i) induce, influence, or encourage, any client, customer or other similar third party of Appraisal MC in the state of the United States where the Appraiser provides services to Appraisal MC under this engagement (each, a "Customer") to alter, terminate, or breach its contractual or other business relationship with Appraisal MC, or (ii) solicit appraisal related business or services from, or engage in appraisal related business or services for, any Customer. Appraiser agrees that the duration, scope, and geographical area of the restrictions contained herein are reasonable. Upon a determination by a court of competent jurisdiction that any term or provision of this clause is invalid, illegal, or unenforceable, such court may modify this clause to substitute the maximum duration, scope, or geographical area legally permissible under such circumstances to the greatest extent possible to give effect to the restrictions originally contemplated by the parties hereto.

Appraiser acknowledges and agrees that: (i) the restrictive covenants and other terms and conditions herein are reasonable and reasonably necessary to protect the legitimate business interests of Appraisal MC; (ii) that each Restricted Person will be reasonably able to earn a living without violating the terms of this agreement; and (iii) that the Appraiser has the right to consult with counsel before signing this agreement. The Appraiser further acknowledges that: (i) the amount of the Appraisers compensation reflects, in part,
each Restiard Person has an expectation of any additional compensation, royalties, or other payment of any kind not otherwise referenced herein in connection herewith; and (iii) no Restricted Person will be subject to undue hardship by reason of the Restricted Persons full compliance with the terms and conditions of this engagement or Appraisal MCs enforcement of it.

In the event of a breach or threatened breach by a Restricted Person of any of the provisions herein, the Appraiser hereby consents and agrees that money damages would not afford an adequate remedy and that Appraisal MC shall be entitled to seek a temporary or permanent injunction or other equitable relief against such breach or threatened breach from any court of competent jurisdiction, without the necessity of showing any actual damages, and without the necessity of posting any bond or other security. Any equitable relief shall be in addition to, not in lieu of, legal remedies, monetary damages, or other available relief.

APPRAISAL MC RESERVES THE RIGHT TO DISCOUNT FEE OF PAST DUE REPORTS BY \$100 PER DAY IF NO NOTIFICATION IS RECEIVED. COMPLETED APPRAISALS MUST BE SUBMITTED BY 2 PM CST ON THE DUE DATE.

IF A RUSH/PRIORITY ASSIGNMENT IS NOT SUBMITTED ON OR BEFORE THE DUE DATE THE RUSH/PRIORITY ADDITIONAL FEE WILL BE FORFEITED.

ANY REVISIONS MUST BE SUBMITTED THE SAME BUSINESS DAY OTHERWISE THE ASSIGNMENT WILL BE CONSIDERED LATE.

## Cancellation policy: Pre-Inspect: 0\%; Post-Inspect based on appt time in system: 50\%; Completed report: 100\%. (Please note that any cancellations will come via message from Appraisal MC- no reply is needed)

TEXAS APPRAISERS: If you are an appraiser licensed or certified in Texas you must accept the TALCB invite prior to accepting any assignments from Appraisal MC. Do not accept any assignments or begin work on any assignments and contact Appraisal MC immediately. Appraisal MC will not be responsible for any work completed by an appraiser not active on the Appraisal MC TALCB panel.

Re: Approximately 25.132 acres or $1 \% 94 \% 50$ square feet of land located along the south line of Mack Washington Lane\%Hempstead\%Waller County\%Texas 77445.

Dear whom it may concern:
A real estate Appraisal Report of the above referenced property has been conducted. The "As Is" market value of the fee simple estate as of December 28\%2022 is:

## \$1\%50\%00\#

We are not qualified to detect the existence of hazardous materials\% which may or may not be present on the subject property. Hazardous materials may affect the value of the property. The value estimated is predicated on the assumption that there is not such material on or in the property that would cause a loss in value. No responsibility is assumed for such conditions or for any expertise or engineering knowledge required to discover them. The client is urged to retain an expert in this field\%if desired.

THE OPINION OF VALUE STATED ABOVE\% AS WELL AS EVERY OTHER ELEMENT OF THIS APPRAISAL REPORT\% IS QUALIFIED IN ITS ENTIRETY BY THE GENERAL ASSUMPTIONS AND LIMITING CONDITIONS SET FORTH IN ANOTHER PART OF THIS REPORT AND WHICH ARE AN INTEGRAL PART OF THE REPORT.

I certify that\%to the best of my knowledge and belief\%...
!1" The statements of fact contained in this report are true and correct.
!2" The reported analyses\% opinions\% and conclusions are limited only by the reported assumptions and limiting conditions\% and are my personal\% impartial\% and unbiased professional analyses\%opinions\%and conclusions.
!3" I have no present or prospective interest in the property that is the subject of this report\% and I have no personal interest with respect to the parties involved.
!4" I have no bias with respect to the property that is the subject of this report or to the parties involved with this assignment.
!5" My engagement in this assignment was not contingent upon developing or reporting predetermined results.
!6" My compensation for completing this assignment was not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client\%the amount of the value opinion\%the attainment of a stipulated result\% or the occurrence of a subsequent event directly related to the intended use of this appraisal.
!7" My analyses\% opinions\% and conclusions were developed\% and this report has been prepared\%in conformity with the Uniform Standards of Professional Appraisal Practice.
!8" I certify that\%to the best of my knowledge and belief\%the reported analyses\%opinions\%and conclusions were developed\% and this report has been prepared\% in conformity with the Uniform Standards of Professional Practice\%the requirements of the Code of Professional Ethics and the Standards of Professional Appraisal Practice of the Appraisal Institute\%and the specific reporting requirements of the client.
!9" Katie McGinnis and Kailey Gillings\% Appraisal Trainee TX\&343409\% have made a personal visit to the property that is the subject of this report. Scott P. Stephens\%MAI\% AI $\& R S$ and Ryan Dagley\%MAI have reviewed the report and concur with the analysis and conclusions.
!10" Kailey Gillings\% Appraisal Trainee TX\&343409 has provided significant professional assistance to the persons signing this report.
!11" I certify that the use of this report is subject to the requirements of the Appraisal Institute relating to review by its duly authorized representatives.
!12" As of the date of this report\%Scott P. Stephens\%MAI\%AI\&RS and Ryan J. Dagley\%MAI have completed the requirements of the continuing education program of the Appraisal Institute and the State of Texas. Katie McGinnis has completed the requirements of the continuing education program of the State of Texas. Kailey Gillings\% Appraisal Trainee TX\&343409 has completed the requirements of the continuing education program of the State of Texas.
!13" The appraiser! s" have not performed services as an appraiser or in any other capacity\% regarding the property that is the subject of this report within the previous three years immediately preceding acceptance of this assignment.

December 30\%2022

The attached report is an explanation of the analysis and reasoning used to derive a market value estimate for the subject. The above values are based on a reasonable exposure period of 12 months.

The appraisal was conducted solely for the named client and is for the internal use of the client only. If you have any questions\%please feel free to call.

## GENERAL ASSUMPTIONS

No responsibility is assumed for the legal description provided or for matters pertaining to legal or title considerations. Title to the property is assumed to be good and marketable unless otherwise stated. The property is appraised free and clear of any or all liens or encumbrances unless otherwise stated. Responsible ownership and competent management are assumed.

The information furnished by others is believed to be reliable, but no warranty is given for its accuracy. The appraisal will interpret the FEMA map in the report. However, the reader is directed to the Caution Statement at the bottom of such map regarding the need to have the property evaluated by a qualified civil engineer or specialist to determine the floodplain status of the property. We are not experts in floodplain evaluation, nor is our interpretation warranted. All engineering studies are assumed to be correct. The plot plans and illustrative material in this report are included only to help the reader visualize the property. It is assumed that there are no hidden or unapparent conditions of the property, subsoil, or structures that render it more or less valuable. No responsibility is assumed for such conditions or for obtaining the engineering studies that may be required to discover them. It is assumed that there is full compliance with all applicable federal, state, and local environmental regulations and laws unless the lack of compliance is stated, described, and considered in the appraisal report.

It is assumed that the property conforms to all applicable zoning and use regulations and restrictions unless a nonconformity has been identified, described and considered in the appraisal. It is assumed that all required licenses, certificates of occupancy, consents, and other legislative or administrative authority from any local, state, or national governmental or private entity or organization have been or can be obtained or renewed for any use on which the value estimate contained in this report is based.

It is assumed that the utilization of the land and improvements is confined within the boundaries or property lines of the described property and that there is no encroachment or trespass unless noted within the report.

Unless otherwise stated in this report, the existence of hazardous materials or wetlands, which may or may not be present on the property, was not observed by the appraiser. The appraiser has no knowledge of the existence of such materials or condition on or in the property. The appraiser, however, is not qualified to detect such substances or areas. The presence of substances such as asbestos, urea-formaldehyde foam insulation, and other potentially hazardous materials may affect the value of the property. The value estimated is predicated on the assumptions that there is no such materials on or in the property that would cause a loss in value. No responsibility is assumed for such conditions or for any expertise or engineering knowledge required to discover them. The client is urged to retain an expert in this field, if desired.

## LIMITING CONDITIONS

The opinion of value and every other element of this appraisal report are qualified and limited by all of the following conditions:

1. THIS REPORT WAS PREPARED FOR THE INTERNAL USE OF THE CLIENT AND INTENDED USER(S) NAMED WITHIN THIS REPORT. NO PERSON OR ENTITY OTHER THAN THE CLIENT AND INTENDED USER(S) HAS ANY RIGHT OR AUTHORITY TO RELY ON THIS REPORT OR ANYTHING CONTAINED IN IT OR IMPLIED FROM IT, UNLESS OTHERWISE STATED IN THE BODY OF THE REPORT.
2. The appraiser will not be required to give testimony or appear in court because of having made this appraisal, with reference to the property in question, unless arrangements have been previously made.
3. The appraiser, by reason of this appraisal, is not required to give further consultation or testimony or to be in attendance in court with reference to the property in question unless arrangements have been previously made.
4. The distribution of the total valuation in this report between land and improvements applies only under the reported highest and best use of the property. The allocations of value for land and improvements must not be used in conjunction with any other appraisal and are invalid if so used.
5. Neither all nor any part of the contents of this report, or copy thereof, shall be conveyed to the public through advertising, public relations, news, sales, or any other media without written consent and approval of the appraiser. Nor shall the appraiser, firm, or professional organization of which the appraiser is a member be identified without written consent of the appraiser.
6. By acceptance of this report, the client acknowledges that the value opinion is the product of a professionally trained mind, but nevertheless is an opinion only, and not a provable fact. As a personal opinion, a valuation may vary between appraisers based on the same facts.

## DESCRIPTIONS, ANALYSES AND CONCLUSIONS

## PURPOSE OF THE APPRAISAL

The purpose of this appraisal is to estimate the "as is" market value of the fee simple estate of the subject property being described as:
25.132 acres or $19094 \% 50$ square feet of land being Lot $1 \%$ Clear Creek Development\%Naller County\%exas.

## PROPERTY RIGHTS APPRAISED

The property rights appraised are the fee simple estate of the subject property\%subject to existing easements\%estrictions\%nd prior encumbrances.

## DEFINITION OF MARKET VALUE

Market value means the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale\% buyer and seller each acting prudently and knowledgeably\%nd assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:
\& Buyer and seller are typically motivated;
\& Both parties are well informed or well advised\%nd acting in what they consider their own best interests;
\& A reasonable time is allowed for exposure in the open market;
\& Payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and
\& The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

Sources: OCC Regulations\%No. 128CFR\&Subpart C834.42! g" Title XI of the FIRREA Act of 1989\%Interagency Appraisal and Evaluation Guidelines of December\%2010.

Note: The appraiser defines the reasonable exposure time as 12 months.

## MARKETING TIME AND EXPOSURE TIME

The exposure time is the estimated length of time the property interest being appraised would have been offered on the market to the hypothetical consummation of a sale at market value on the effective date of the appraisal. The marketing time is an opinion of the amount of time it might take to sell the property interest being appraised at the concluded market value level during
the period immediately after the effective date of an appraisal. In this case\%/he exposure time and marketing time is estimated to be approximately 12 months\%which is based on interviews with market participants\%nalysis of the sales comparison approach and investor surveys.

## EFFECTIVE DATE OF APPRAISAL DATE OF THE REPORT

The effective date of the appraisal for the "as is" value is December $28 \% 202 \%$ /he date of the site visit. The date of the report is December 30\%2022.

## INSTRUCTIONS TO THE APPRAISER

The appraisers were instructed by the client to conduct an "as is" market value appraisal of the fee simple estate of the subject property. Data provided by the client includes legal description of the subject property and specific appraisal guidelines.

## SCOPE OF THE APPRAISAL

This is a Summary Appraisal Report. It presents discussions of the data\%reasoning\%and analyses that were used in the appraisal process to develop the appraiser s opinion of value. The depth of discussion and analyses contained in this report is specific to the needs of the client and for the intended use stated in this report. The appraiser is not responsible for unauthorized use of this report.

The term "extent of the research" relates to the extent of the process of collecting\% confirming\%nd recording data. All sources of information have been documented throughout the report and the appraisers relied on the accuracy of these sources. However\%t is suggested by the appraiser that the client read and fully understand the assumptions and limiting conditions set forth within as to the extent of responsibility of the appraiser.

The appraisal was conducted in conformity with the Ethics and Standards of The Appraisal Institute\%/he State of Texas\%/dhe Uniform Standards of Professional Appraisal Practice ! USPAP"\% and guidelines requested by the client. This appraisal considers the land sales comparison approach to value\%ut not the cost approach to value or the income approach to value because the subject represents vacant land.

The research included comparable sales of land with similar physical characteristics\% occurring in the past three years within the subject area. All of the land sales included in this analysis were confirmed by Scott Stephens and Associates\%Inc. Some of the items which were verified in the confirmation process include the sale prices\%ecording data\%physical and income characteristics\%and other vital information available from the grantor or grantee\%and from actual deed records as reported by various reporting services or county agencies.

Scott Stephens \& Associates, Inc.

Kailey Gillings\%Appraiser Trainee TX\&343409\%has provided significant professional assistance to the persons signing this report\%including assisting in the site visit of the subject property\%esearching neighborhood and market information\%and research of comparable sales of land with similar physical characteristics.

The site visit to the subject property was conducted on December $28 \% 2022$. The subject property consists of approximately 25.132 acres or $12094 \% 50$ square feet tract of vacant land. A property visit to the subject site and of the surrounding environment was conducted.

COVID\&19 !Coronavirus": The global outbreak of a "novel coronavirus" known as COVID\& $\$ 9$ was officially declared a pandemic by the World Health Organization !WHO". The reader is cautioned and reminded that the conclusions presented in this appraisal report apply only as of the effective date! $s$ " indicated. The appraiser makes no representation as to the effect on the subject property of any unforeseen event\%subsequent to the effective date of the appraisal.

The COVID \& 9 or Coronavirus global pandemic arrived in United States in late January of 2020 unleashing unprecedented public gathering restrictions by March of 2020. The long\&and short\&erm market impact from Covid $\& 9$ is in determining the market value conclusion.

The attached report presents all factual knowledge concerning the subject property to include its physical characteristics\%characteristics of the general area\%neighborhood and the immediate market. After presenting factual knowledge concerning the subject property and its market\%dhe land sales comparison approach to value are analyzed and a final value estimate is reconciled and identified.

## COMPETENCY PROVISION

It is presented that this report was completed by Scott P. Stephens\%MAI\%AI\&RS\%Ryan Joseph Dagley\%MAI\%Katie McGinnis\%and Kailey Gillings. Scott Stephens and Ryan Dagley hold the MAI designation awarded by the Appraisal Institute\%and are currently certified under the continuing educational programs. Further\%/his designation is held by appraisers experienced in the valuation and evaluation of commercial/\&ndustrial/residential/and other types of properties; and who advise clients on real estate investment decisions. Ryan Dagley\%Scott Stephens\%and Katie McGinnis are State Certified General Real Estate Appraisers\%and are currently certified under the continuing educational programs. The appraisers have completed numerous appraisal assignments on properties such as the subject and have the experience and ability to complete the appraisal in a competent manner. For a more detailed description of the appraiser s qualifications\%efer to the introduction section of this appraisal. Kailey Gillings\%Appraiser Trainee TX\&343409 has provided significant professional assistance to the persons signing this report and is a Trainee under Mr . Scott Stephens\%MAI\%AI\&RS. Kailey Gillings is a trainee and is under the continuing educational programs from the TALCB.

Scott Stephens \& Associates, Inc.

## INTENDED USER AND INTENDED USE OF THE APPRAISAL IDENTIFICATION OF CLIENT

The intended use of the appraisal is for the internal use of the client ! Appraisal $\mathrm{MC}^{\prime \prime}$ for asset evaluation and analysis. The intended user of this appraisal is Appraisal MC.

## HISTORY OF THE SUBJECT

According to the Waller County Appraisal District !WCAD"\%种e subject is a 25.132 acre or $19294 \% 50$ square feet tract of land. Per the Waller County Appraisal District!WCAD"\%he subject is under the ownership name of CBT Group LLC\%who has owned the subject for less than three years ! since March 29\%2022 per WCAD". The subject site was purchased by the current owner in March of this year at an undisclosed purchase price. Currently\%he subject is not being marketed for sale. There have been no other known conveyances of title for the subject within the past three years.

## REAL ESTATE TAXES

The Waller County Appraisal District lists the ownership name of CBT Group LLC ! property ID 257912". Copies of the subject's WCAD tax information pages are included within the Addenda section. The subject has an assessed value of $\$ 1 \not 204 \% 50$. Due to an agriculture exemption on the property/dhe current ! 2022" total assessed valuation for the subject property is $\$ 1 \% 90 \% \mathrm{f}$ which $100 \%$ is attributed to the land. The subject property is within the taxing jurisdictions of the City of Hempstead\%Naller\&Harris Emergency Service District 200\%Naller CountyodNaller County FM\% (and Hempstead Independent School District. The current ! 2022" total tax rate is $\$ 2.335144$ per $\$ 100$ in assessed value. Thus\%/dhe current total indicated tax liability for the subject based on the above estimated assessed value of the subject is $\$ 44$. ${ }^{\circledR}$ This report assumes all taxes are paid to date.

## CITY ANALYSIS

The Houston®he Woodlands\&ugar Land Metropolitan Statistical Area has 7.1 million inhabitants and is the fifth most populous metro area according to the US Census Bureau as of 2019\%/dheir most current reported year. Additionally\%/dhe City of Houston has approximately 2.3 million inhabitants which puts the city as the fourth\&argest US city.

Houston's economy historically relied on the petroleum and petrochemical exploration and production industries\%earning the city the title "Oil Capital of the Nation." However\%today

Scott Stephens \& Associates, Inc.

Houston has broadened its economic base\%hifting away from the energy sector and diversifying in industries like biotechnology\%anotechnology\%nanufacturing\%ogistics\%nd aeronautics.

The COVID\& 9 pandemic has led to a widespread economic disruption across the MSA\% and its effects have been felt both directly and indirectly. The government mandated stay \&ome orders directly impacted the retail and hospitality sectors by curtailing spending at non\&ssential businesses and softening demand. Furthermore\%as global travel largely froze after the pandemic\% the demand for oil and gas crashed resulting in negative oil prices for the first time in the industry's history. These subsequent lower oil prices globally led to indirect effects on Houston's energy and manufacturing industries.

These consequences of the pandemic saw vacancy rates increase substantially in 2020\% correlating with both negative absorption and decreasing rental rates in most areas and sectors of the real estate market. The office market experienced $\& \&$ million SF of net absorption in $2020 \%$ which was the worst year on record\%nd an overall vacancy rate of above $18 \%$ is one of the worst in the nation as the Houston office market was already facing problems pre\&andemic as owners have had to contend with successive supply waves and waning energy tenant demand. In the industrial sector\%demand is being driven by e\&ommerce providers\%ogistics companies\%uilding material retailers\%and discount stores. Yet Houston's industrial sector is experiencing record\& breaking new supply\%eading to rising vacancies and some of the lowest rent growth metrics in the country. An increase in vacancies in the retail sector caused by businesses shutting down has forced landlords to lower rents\%and 2020 marked the first time the market registered negative annual rent growth in ten years. Rent growth has remained firmly in the red since.

Looking forward\%while the local recovery outpaced that of the US due to the state's accelerated reopening/the recovery of the Houston economy depends largely on an improving health situation.

The near term outlook is bleak\%s cutbacks in nonぬssential retail spending\%especially for service\%entertainment\%and apparel retailers has hurt retailer revenues significantly. Further\%/he unpredictability of the energy markets here forward add to the economy's volatility. Although the US rig count started to rebound slightly in early 2021\%t still remains in historically low territory\% extending economic uncertainty for Houston's exploration\%production and oil field service companies\%which are the region s largest employers.

However\%in the longer term\%Houston's economic outlook remains optimistic with the vaccine rollout\%and economists are forecasting 35900 to $71 \% 00$ new jobs in 2021. Though the energy industry is predicted to remain stagnant\%boveraverage population growth\%and expansion in housing//ransportation and distribution will continue to drive growth. This is particularly true in Houston's northern and western suburbs\%which are growing quickly and have become the primary target for investment buyers. These areas are anticipated to witness an outsized share of new
demand/as demand for shopping and rental housing is strengthened in these suburbs due to a shift in renter and employer preferences to outside the core as a result of the health crisis and subsequent remote working.

Geography: The Houston metro is composed of Harris\%Galveston\%Brazoria\%ort Bend\% Chambers\%Montgomery\%Austin\%Liberty\%San Jacinto\%and Waller counties located in southeastern Texas. Bordered on the southeast by the Gulf Coast//dhe metro encompasses Galveston Bay. The Houston Ship Channel links the City of Houston to the Gulf of Mexico. The area’s terrain is level and drains into a number of bayous and canals. Growth has sprawled\%rimarily to the north and west\%making Houston the fifth\&nost populated metro in the nation. These 10 counties have a population of almost 7.1 million people. Houston is the largest city\%with nearly 2.3 million residents $\%$ ollowed by Pasadena and Pearland.

Infrastructure: Great strides have been made to upgrade Houston's transportation infrastructure\%with installments of Metro Rail and the completion of Interstate 10 in West Houston now comprising sections of the state's first interstate toll road. Also\%the apportion of U.S. 59 through Houston has been upgraded and renamed Interstate 69. When the 19600 \&nile interstate is completed\%Houston will have better access to Canada and Mexico. Since 1994\%onstruction on the massive State Highway 99\%r "Grand Parkway\% has driven growth in the metro. This outer loop will be the largest beltway in the U.S. once completed.

There are two major commercial Airports within the Houston MSA. George Bush Intercontinental Airport ! IAH" is among the country's busiest airports\%servicing most major airlines and has non\&top flights to every inhabited continent. Additionally\%t is the second largest hub for United Airlines. William P. Hobby Airport !HOU" is Houston's secondary commercial airport\%\&nd is an operating base for Southwest Airlines providing both domestic and international flights.

The Port of Houston contains 210 Miles of facilities located along the Houston Ship Channel and has recently been expanded. The port is one of the world's busiest\%noving more than 200 million tons of cargo\%nd it records nearly 8900 vessel calls annually. As the closest gulf port to the Panama Canal\%Houston will benefit from the port's increased capacity.

Economy: Houston is the center of the U.S. petroleum industry. The metro leads the nation in petrochemical manufacturing and refining and ranks highly in manufacturing agricultural chemicals\%ertilizers\%and pesticides. In fact\%Houston is home to 44 of the 128 publicly traded oil and gas companies. Houston is also the world's primary producer of oil\&ield equipment. Other products manufactured in Houston include paper\%electrical and electronic machinery\%iron\%and steel.

Today Houston has broadened its economic base\%shifting away from the energy sector and diversifying in industries with a particular stronghold in healthcare and the life sciences. In fact\%

Houston is home to the largest medical center in the world at the Texas Medical Center\%which treats more than 7.2 million patients annually and employs more than 100000 people. The Texas Medical Center has plans to expand its footprint\%with several million SF of new life sciences\& oriented mixed\&sed projects in the pipeline. With this expansion//hey seek to establish Texas as the "Third Coast" for life sciences and biotechnology research\%ompeting directly with Cambridge\% MA and San Francisco\%CA. As such\%Houston's public and private sectors today are united in growing its global life sciences profile.

The Port of Houston is one of the country's busiest for exports and is in the process of upgrading its facilities to handle the larger supertankers that will come through the widened Panama Canal. Significant trading partners include Mexico\%Saudi Arabia\%Venezuela\%China\%nd Germany. The port directly supplies thousands of jobs and generates billions of dollars in business revenue\%nd is central to the region's ongoing development as a hub for international trade.

Labor: Prior to the outbreak of the CoronaVirus Pandemic\%he Houston MSA consistently ranked among the top metros for job growth in the country. Ample job opportunities had spurred significant population growth and more than 1.1 million new residents were added from 2010 to 2019. However\%he onset of the pandemic has had a large impact on the Houston economy\%eading to a significant rise in unemployment due to the closing of many retail\%ransportation\&elated\%nd hospitality businesses: at the height of the pandemic\%Houston's unemployment reached 14\%. While this level has recovered to just above 8\%\%his is still significantly above the pre\&andemic number of 4.1\%.

Today\%Houston's labor pool consists of nearly 3.4 million individuals according to Texas Labor Market Information and is dominated by jobs in the energy industry\%which consists of the following components: upstream energy !oil and gas exploration and production"\%pipeline transportation and oil field equipment manufacturing\%nd downstream energy ! refining\%hemicals manufacturing". At present\%ppstream companies represent less than one\&hird of Houston’s jobs\% while energy\&ndependent businesses represent more than 50 percent.

Substantial structural shifts in Houston's employment base has reduced its vulnerability to downturns in energy. The Port of Houston and George Bush Intercontinental Airport contribute to the trade\%ransportation\%and utilities sector\%which is the largest employment sector in the metro\% comprising $21 \%$ of all nonfarm jobs. This sector experienced a loss of $\& .3 \%$ as a result of the pandemic\%as compared to $\wp .8 \%$ of all nonfarm jobs. Professional and business services is the second largest sector\%ccounting for $16.2 \%$ of total employment\%and likewise experienced a loss below the total at $\$ .8 \%$.

Employers: Houston serves as the headquarters for 22 Fortune 500 companies !September 2020" in industries such as energy\%ransportation and technology. Corporations on the list include Phillips 66\%sysco\%Baker Hughs and Halliburton. Houston is fourth among metros nationwide in
the number of Fortune 500 headquarters\%behind only New York City\%Chicago and Dallas. Houston's major employers include H\&\&\%Houston Methodist\%Memorial Hermann Health System\%nd MD Anderson Cancer Center.

Though Houston is home to many major corporations\%usinesses with 250 or more workers account for only a small portion of total employment. The metro has hundreds of thousands of small businesses\%which provide jobs in all employment sectors.

Demographics: The following data is taken from the US Census Bureau as of 2019. The metro's population has grown $19.5 \%$ since $2010 \%$ adding more than 1.2 million residents and is predicted to continue to increase for the next five years at approximately $2.2 \%$ annually. A large portion of the growth will come from immigration as an expanding employment base attracts young workers to the region. As a result\%he area has one of the lowest median ages among major U.S. metros at 34.9 years per the US census. Around $29 \%$ of residents fall within their prime employment years of 25 to 44 .

The availability of employees also helps attract corporations seeking a large\%ffordable and skilled labor pool. More than 33\% of area residents age 25 and older have attained a bachelor's degree and more than $12 \%$ hold a graduate degree.

A skilled workforce as well as the concentration of Fortune 500 headquarters and major business operations in the region contributes to income growth. The metro's median household income\%urrently at $\$ 69 \% 93$ per year\%s expected to rise significantly in the next five years. Low housing prices help to keep Houston as one of the most affordable major metros in the country\% with more than $60 \%$ of households owning their home.

Quality of Life: Outdoor activities abound in Houston as a result of the city's favorable location and climate. More than a dozen state parks and recreation areas lie within a short drive of Houston\% $\%$ nd more than 500 parks and open spaces are located in the immediate area.

For those seeking cultural activities\%Houston is one of very few U.S. cities with permanent professional resident companies in opera\%allet\%rchestra and theatre. The area also has a strong collection of museums including the Museum of Fine Arts\%Houston; Children's Museum of Houston; and the Lawndale Art Center. Additionally\%Houston is home to four professional sports teams: the Houston Texans\%\%he Houston Astros\%he Houston Rockets\%nd the Houston Dynamo.

Educational opportunities also play a key role in Houston's quality of life. The education and health services sector accounts for 12 percent of total employment. Johnson Space Center for instance\%is a popular tourist and educational destination. Houston offers distinguished school districts and more than 40 colleges\%universities and institutions. The metro is also known internationally for its medical community and is home to the Texas Medical Center\%/dhe largest medical center in the world.

Due to its affordability\%warm climate\%ow taxes\%nd proぬusiness environment\%Houston is well positioned for future growth and remains resilient in the face of the current recession. If the reader desires more detailed statistical and background information for the City of Houston it is available for the reader at the following website address: www.houstontx.gov. This web site contains information on the history of the city\%he form of government\%economy\%and trade\%and area attractions.

The information contained in the market overview comes from Marcus \& Millichap and other sources deemed to be reliable\%owever\%o representation\%varranty or guarantee\%express or implied\%nay be made as to the accuracy or reliability of the information contained herein. The most timely data available at time of production\%ncluding estimates and forecasts\%were used and may be subject to revision.

## NEIGHBORHOOD ANALYSIS

A neighborhood is defined as "A group of complimentary land uses; a congruous grouping of inhabitants\%uildings\%or business enterprises." The Dictionary of Real Estate Appraisal, 6th Edition

The purpose of the area and neighborhood analysis section of this report is to provide a background for the subject property in terms of its most immediate influences. This section delineates factual data according to the social\%conomic\%/governmental/\%nd environmental forces that affect the inhabitants\%and thus the value of the property in the general and immediate neighborhoods.

Location/Boundaries/Access: The subject neighborhood may be generally defined to be the Hempstead area of Waller County and the City of Waller. Specifically\%/dhe US 290 corridor between the City of Hempstead to the west and the City of Waller to the east. Hempstead and Waller represents a rural communities situated approximately 40 to 50 miles northwest of the Houston Central Business District. The City of Waller is centered around the intersection of US
 290 and SH 6.

The subject property itself is located within city limits of the City of Hempstead\%which is an incorporated part of Waller County\%Texas. Specifically\%/he subject property is situated along the south line of Mack Washington Lane\%eing just north of Business US 290 ! Old Hempstead Highway". Furthermore/dhe subject is located approximately 1.50 miles east of State Highway 6 !SH 6".

Traffic Arteries: US 290 begins at Loop 610 in near northwest Houston and ends at IH 35 in north central Austin. While there are several other routes\%ince the completion of all of the US 290 bypass highway sections northwest of Houston\%t is now the most traveled route between these
two important Texas cities. SH 6 begins at Hitchcock\%at IH 45\% ust west of Galveston\% 2 nd loops around the south side of the Houston Metro Area\%turning north in the Sugar Land Area\%and continuing as SH 6 until it reaches US 290. To the north it becomes FM 1960\%eventually ringing the entire greater Houston area\%meeting back with SH 6 in Hitchcock as SH 146. SH 6 itself follows the common route with US 290 until it branches off to the north at Hempstead\%ontinuing to the Bryan/College Station\%exas A \& M University and beyond.

The old highway still exists between Hempstead and Houston\%generally known as Hempstead Highway\%ut has become rather secondary as a result as the new configuration. There are plans to make this a toll road at some future date. The other two communities in this immediate area are Waller ! the county seat"\%and Prairie View !home of Prairie View A \& M University". Like most rural towns\%/here is a healthy network of farm to market and county roads that service the area.

Development: Hempstead began as a cattle and agricultural town situated along a major railroad. It now represents a town of just around 5900 in population. The old downtown area still has some viable businesses\%nd even though the main traffic has been redirected to the north\%nost of the retail and service development is still along the old highway. The city government is of the Alderman type. There are several banks\%medical clinics\%doctors\%dentist\%and chiropractors\%a physical therapist\%and a nursing home. There are a total several churches\%restaurants\%a super market/\% Wal Mart\%/and numerous retail and service oriented businesses.

The Lawrence Marshall Automobile Dealership\%which was one of the major dealerships in the state\%as been shut down and is no longer a draw to the area. There is a motel on the south side of US 290 west of SH 6\% $\%$ nd several service station and truck facilities in the immediate area of that intersection. The closing of the dealership has negatively affected the area.

Daikin Industries has developed a new air conditioning and furnace factory\%being approximately $4 \% 00 \% 00$ square foot tilt wall facility\%which employs $5 \% 00$ workers. This new Daikin facility is located approximately 5.5 miles east of the subject. The appraiser is aware of a new 9009000 square foot FedEx facility going in on the Grand Parkway in the Far Northwest submarket ! subject's submarket"\%nd GET just leased a $200 \% 00$ square foot industrial building in the $4^{\text {th }}$ Quarter in the Far Northwest submarket. Transwestern notes that $72 \%$ of the new speculative space in the subject's submarket is pre\&eased indicating strong demand.

Public Services: Police\%fire\%and emergency services are generally provided by Waller County\%excepting where the City of Hempstead has controlling authority. Within the city limits\% water and sewer services are available from the City of Hempstead\%ut are not available outside of the city limits\%where private systems are necessary. Natural gas is not generally available\%but electricity\%telephone\%high speed internet service\%and cable TV are available. Natural gas is available is certain areas of the City of Hempstead\%ncluding the subject property.

Scott Stephens \& Associates, Inc.

Recreation: The neighborhood enjoys substantial recreational opportunities due to the presence of two major universities to the north and east\%many fishing areas\%bird hunting\%ff\& roading\%and other rural activities. The area has long been popular for gentleman farm estates and weekend farm/ranch homes. There is a watermelon festival every year\%he bluebonnet trail in the spring\%and there are several other major festivals and get\&o\&athers between Hempstead\%Naller\% Bellville\%Brookshire\%Chappell Hill\%and Round Top. One of the larger antique festivals in the country ! five miles on both sides of the highway" twice a year between Round Top and Warrenton. While Hempstead itself has only a few antique/collectable shops\%/the area in general is full of history and famous for these types of shops. Another major area attraction is the Texas Renaissances Festival in the months of October and November\%ocated just to the east at Magnolia.

Conclusion: While the cities of Waller and Hempstead has grown by about 30\% every decade since the 1960 's/dhe surrounding Waller County population has more than doubled that rate\%specially over the past 15 years. Suburban development with a Houston base has grown past the 50 mile mark from the CBD in several directions\%ond the belt of rolling\%reek riddled terrain west of Houston from Brookshire and Sealy on the south\%ll the way to Brenham and Navasota on the north represents logical developmental expansion for the foreseeable future\%specially as more workers are enabled to work part or full time from home computers connecting to their places of employment.

COVID\&19 !Coronavirus": The global outbreak of a "novel coronavirus" known as COVID\&9 was officially declared a pandemic by the World Health Organization!WHO". The reader is cautioned and reminded that the conclusions presented in this appraisal report apply only as of the effective date! $\mathrm{s}^{\prime \prime}$ indicated. The appraiser makes no representation as to the effect on the subject property of any unforeseen event\%subsequent to the effective date of the appraisal.

The COVID \& 9 or Coronavirus global pandemic arrived in United States in late January of 2020 unleashing unprecedented public gathering restrictions by March of 2020. The long\&and short\&erm market impact from Covid\& 9 is in determining the market value conclusion.

Current Market Trends: The subject area has experienced moderate amounts of overall growth in the past 3 to 5 years in the commercial market. Development in the neighborhood includes retail\%commercial\%light industrial\%multifamily\%as well as singleぬamily residential subdivisions. Overall\%his area represents a well\&ounded community from all standpoints.

In addition\%as Houston continues to diversify from its previously heavily dependent petroleum economy\% the overall business basis continues to strengthen. Considering the neighborhood s location\%end its accessibility from major thoroughfares\%he medium to long\&erm prospects for the neighborhood are considered stable.

Overall/4his neighborhood is considered to have good potential for continued development. The following pages are a snapshot of the Greater Houston Partnership Volume 31\%No. 10 October 2022.

Houston Nonfarm Payroll Employment ........................... 8

## HOW WE'VE CHANGED

Each fall, the U.S. Census Bureau releases the American Community Survey (ACS), its annual snapshot of the nation's economic, demographic, housing and social characteristics. By examining ACS data over time, one can see shifts in the population. This issue of Glance examines what the ' 21 ACS data revealed about Houston.

## Race and Ethnicity

Houston's Black, Asian and Hispanic populations have grown substantially over the past 10 years. Houston's White population, however, has stagnated. Those trends accelerated over the past two years. There were 88,000 fewer Whites in metro Houston in '21 than in '19. Hispanics more than made up for those losses, adding 89,000 residents. The Black population jumped by 24,000 , the Asian population by 25,000 over the two years.

| Race/ Ethnicity | '21 | '11 | Change, '11-'21 |  |
| :---: | :---: | :---: | :---: | :---: |
|  |  |  | Estimate | \% |
| Hispanic | 2,774,634 | 2,185,195 | 589,438 | 27.0 |
| White | 2,392,671 | 2,386,063 | 6,608 | 0.3 |
| Black | 1,210,749 | 1,022,598 | 188,151 | 18.4 |
| Asian | 576,547 | 395,648 | 180,899 | 45.7 |
| Multiple ${ }^{1}$ | 216,205 | 73,043 | 143,162 | 196.0 |
| Other ${ }^{2}$ | 36,034 | 24,348 | 11,687 | 48.0 |
| Total | 7,206,841 | 6,086,895 | 1,119,946 | 18.4 |

2 Includes American Indians, Alaska Natives, Native Hawaiians, and Other
Pacific Islanders
Source: U.S. Census Bureau, American Community Survey 1-Yr Estimates

Hispanics are the largest ethnic group in Houston. No single group comprises a majority of the population, however. That's been the case for over a decade. Houston today resembles what the U.S. will look like 40 years from now.

## RACE/ETHNICITY, \% OF POPULATION <br> Houston in '21 v. U.S. in '60

Source: U.S. Census Bureau

## Foreign Born

Individuals born outside the U.S. represent a larger share of the region's population than a decade ago, 24.1 percent in '21 versus 21.9 percent in '11. By comparison, the foreign-born population for the nation was 13.6 percent in '21, up marginally from 13.0 percent in ' 11.
Since '11, Houston has added over 400,000 foreign-born residents. They account for 36.1 percent of the region's population gains since '11. Two thirds ( 1.1 million) of Houston's foreign-born population, arrived in the U.S. prior to '10.

COMPOSITION OF METRO HOUSTON POPULATION

|  | '21 |  | '11 |  |
| :--- | :---: | :---: | :---: | :---: |
| Origin | Count | \% | Count | \% |
| Native Born | $5,469,992$ | 75.9 | $4,753,865$ | 78.1 |
| Foreign Born | $1,736,849$ | 24.1 | $1,333,030$ | 21.9 |
| Total | $7,206,841$ | 100.0 | $6,086,895$ | 100.0 |

Source: U.S. Census Bureau, American Community Survey

Less than half ( 42.9 percent) of our foreign-born are naturalized citizens. That is up from 35.2 percent 10 years ago. For the nation, 53.1 percent of foreign-born residents are citizens, up from 44.9 percent in ' 11.

## Place of Origin

The majority of our foreign-born came from Latin America ( 61.2 percent), followed by Asia ( 25.9 percent), Africa ( 6.8 percent), Europe ( 4.9 percent), North America ( 0.9 percent) and Oceania ( 0.2 percent). Twenty countries account for 85.5 percent of Houston's foreign-born residents.

ORIGIN OF HOUSTON'S FOREIGN-BORN POPULATION

| Country | Residents | Origin | Residents |

## Age

Houston's population continues to mature. In '11, the region's median age was 33.4 years. In '21, the median was 35.3. The median for the U.S. is 38.8 years.

Seniors (residents over 65) accounted for 12.1 percent of our population in '21, up from 8.9 percent in '11. Minors (residents under 18) were 26.2 percent of the region's population, down from 27.7 percent in ' 11 .

| AGE COMPOSITION OF METRO HOUSTON |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: |
| '21 |  |  |  |  |
| Count | \% | Count | $\%$ |  |
| Years | Counter 20 | $2,068,363$ | 28.7 | $1,856,503$ |

Note: Columns do not sum due evenly due to rounding errors Source: U.S. Census Bureau, American Community Survey

## Disability Status

One in 10 Houstonians, 743,425 residents, suffer from one or more disabilities (behavioral, emotional, sensory, mobility, or developmental). That's up from 573,540 residents ten years ago. Typically, this cohort grows by 17,000 to 20,000 residents each year. From '19 to '21, the population jumped by nearly 85,000 . One in 24 Houstonians under the age of 18 has at least one disability. The rate is one in 12 for ages 18 to 64 and one in three for residents 65 and older.

## School Enrollment

Just over 1.9 million Houston residents were enrolled in school in '21, up from 1.7 million in '11. Nearly one in four (22.6 percent) were in college or a graduate school, compared to 21.1 percent in ' 11 .

| POPULATION 3 YRS AND OVER ENROLLED IN SCHOOL, '21 |  |  |
| :--- | ---: | ---: |
| Grade Level | Students | $\%$ |
| Nursery school, preschool | 99,396 | 5.2 |
| Kindergarten | 97,484 | 5.1 |
| Elementary school (grades 1-8) | 846,775 | 44.3 |
| High school (grades 9-12) | 437,723 | 22.9 |
| College or graduate school | 431,989 | 22.6 |
| Total | $1,932,292$ | 100.0 |

Note: Columns may not sum due evenly due to rounding errors.
Source: U.S. Census Bureau, 2021 American Community Survey

## Educational Attainment

Houstonians are better educated. One in three adults ( 35.8 percent) hold a bachelor's degree or higher. Ten years ago, 28.9 percent did. Increased enrollment in higher education and the passing on of older Houstonians who tended to be less educated has contributed to the improvement.

## EDUCATIONAL ATTAINMENT, METRO HOUSTON

 POPULATION 25 YEARS OLD AND OLDER| Highest Education Level Attained | $\mathbf{\prime 2 1}$ | $\mathbf{1 1}$ |
| :--- | ---: | ---: |
| No High School Diploma | $\mathbf{1 5 . 5}$ | 18.9 |

## Labor Force Participation Rate

The labor force participation rate is the percentage of population over 16 that is employed or unemployed and actively seeking work. Houston's rate has trended down since the '00s. The decline accelerated in the pandemic.

LABOR FORCE PARTICIPATION RATE, METRO HOUSTON

At 65.8 percent, Houston's rate is still well above that of the U.S., which averaged 62.5 percent in ' 21 .

## Travel to Work

Houstonians are spending more time in traffic. According to the ACS, the average travel time to work was 28.9 minutes in '21, up from 27.7 minutes in ' 11.

- Most commuters ( 70.6 percent) drive to work alone, down from 80.4 percent in ' 11 .
- Only 8.9 percent of commuters carpool, down from 10.8 percent 10 years ago.
- Only 1.3 percent of all commutes involved public transit in ' 21 , down from 2.3 percent in ' 11.

One in six Houston workers worked from home (WFH) in ' 21 , up from one in 19 prior to the pandemic and one in 30 a decade ago. While significant, Houston lags the nation in share of population working from home.

| EMPLOYED POPULATION, 16 AND OLDER, <br> WORKING FROM HOME |  |  |  |  |  |  |
| :---: | ---: | ---: | ---: | :---: | :---: | :---: |

## Income

Median household income trended up in recent years, growing 11.3 percent, adjusted for inflation, from ' 11 to '19. Incomes took a hit in the pandemic. Median household income for Houston was $\$ 70,893$ in '21, which is $\$ 58,707$ in '11 constant dollars, a 3.9 percent drop from ' 19.

MEDIAN HOUSEHOLD INCOME, METRO HOUSTON

*'11 constant dollars
Source: U.S. Census Bureau American Community Survey
Poverty
In '11, one in seven Houston families (14.1 percent) lived in poverty. That improved to one in ten ( 10.2 percent) by '19. But the pandemic hit those at the lower income levels the hardest. By '21, one in nine families ( 11.2 percent) lived in poverty.

- In families with children under the age of 18 , the rate jumped from 14.8 percent to 16.3 percent.
- In single-mother households with children under 18, the rate was 37.9 percent in ' 21 , a marginal improvement from 41.9 percent in ' 11 .
- For residents 65 and older, the rate was 11.5 percent in' 21 , up from 10.7 percent 10 years ago.

## Veteran Status

One in 20, or 5.0 percent of the adult population ( 265,780 residents) served in the U.S. military. That's down from '11, when 294,643 veterans, 6.5 percent, called Houston home.

## Health Insurance Coverage

More Houstonians carry health insurance now than a decade ago, but the improvement has been marginal. When the Census Bureau first asked about coverage in '13 (prior to passage of the Affordable Care Act), only 77.2 percent of the metro population had insurance. $\ln$ ' $21,80.7$ percent had health insurance.

| Health Insurance Coverage in Metro Houston |  |  |

## Fertility

The fertility rate trended down in recent years but jumped post-pandemic, setting a record for births in '21.

Source: U.S. Census Bureau, American Community Survey (2010-2021)
Of the 114,161 births in Houston last year, 32.1 percent were to unmarried women (widowed, divorced, or never married). Over the past 10 years, the fertility rate for women under 20 has plummeted while the rate for women 35 to 50 has climbed.

HOUSTON FERTILITY RATES, BIRTHS PER 1,000 WOMEN

| Mother's Age | '21 | '11 |
| :--- | :---: | :---: |
| 15 to 50 years old | 40 | 40 |
| 15 to 19 years old | 16 | 43 |
| 20 to 34 years old | 107 | 104 |
| 35 to 50 years old | 37 | 27 |

Source: U.S. Census Bureau, 2021 American Community Survey Households

Houston added nearly 535,000 households over the past decade. In '21, roughly one-third ( 36.2 percent) of the 2.6 million households included someone under 18; onefourth ( 25.0 percent) included someone over the age of 65 .

HOUSEHOLD COMPOSITION, METRO HOUSTON -'21

## EMPLOYMENT UPDATE

Metro Houston added 5,400 jobs in August '22. This falls below expectations for the month. In a normal year, the region creates 7,000 to 10,000 jobs in August. In a boom year, which has been the case up to this point, the region creates 10,000 to 18,000 jobs. It's too soon to determine whether the August report is the first sign of an economic slowdown.

- Restaurants and bars added 7,500 jobs in August. The sector normally creates 800 to 1,200 jobs in the month. August's job growth is likely an anomaly that will be revised downward in future reports.
- Administrative and support services added 5,500 jobs. Employers are relying on contractors to meet their workforce needs in the current tight labor market.
- Durable goods manufacturing added 1,500 jobs in August and 7,700 since the first of the year. It's not clear from the available data in which sub sectors those jobs were created. Manufacturing overall remains well below pre-pandemic employment levels.
- Real estate/equipment rentals added 800 jobs in August bringing employment to 100 jobs shy of where it stood in February '20. In a sector with over 64,000 jobs, this is essentially a rounding error. The sector should be considered as fully recovered.
- Employment in hotels, information, and other services-all laggards in the COVID recovery - was flat in August. The energy sector, also a laggard, shed 700 jobs.
Fourteen of the 19 major sectors tracked by TWC have fully recovered their pandemic losses. Those sectors are:
- Administrative support and waste management
- Arts, entertainment, and recreation
- Construction
- Educational services
- Finance and insurance
- Food services and drinking places
- Health care and social assistance
- Professional, scientific and tech services
- Retail trade
- Transportation, warehousing, and utilities
- Wholesale trade.

Information, hotels, and personal services should recover by the end of the year. The path to full recovery for energy and manufacturing remains uncertain, especially as U.S. economic growth has begun to slow.

October 2022 Economy ot a Glance (c)2022; Greater Houston Partnership

SECTORS STILL IN RECOVERY, METRO HOUSTON

| Sectors | Job Still to <br> Recoup |
| :--- | ---: |
| Real estate and equipment rentals | 100 |
| Information | 500 |
| Hotels | 2,300 |
| Other Services | 4,300 |
| Manufacturing | 5,700 |
| Energy (exploration, oil field services) | 10,200 |

## RECESSION IN 2023?

Will the U.S. slip into a recession next year? If so, will Houston follow? And if so, how bad will it be for Houston and how long will it last? The Partnership's Houston Region Economic Outlook event scheduled for Thursday, December 8 at the Royal Sonesta Hotel aims to answer those questions and more.

During lunch, a of Partnership Board Members will share their insights for Houston's future. Following the discussion, Patrick Jankowski, the Partnership's Chief Economist, will present the Houston the employment forecast for next year. Register for the event at the Partnership's website.

## KEY ECONOMIC INDICATORS

Aviation - The Houston Airport System (HAS) handled 52.2 million passengers in the 12 months ending August ' 22 , up 44.5 percent from the comparable period in ' 21 . This marks the highest 12 month passenger count since April ' 20.

Building Permits - City of Houston building permits totaled $\$ 7.7$ billion for the 12 months ending August ' 22 , up from $\$ 6.1$ billion over the same period in '21, according to the city's Public Works Department. Commercial permit values rose 28.6 percent to $\$ 4,3$ billion and residential permit values increased 21.9 percent to $\$ 3.4$ billion.

Construction - Metro Houston construction starts totaled $\$ 14.8$ billion through July of this year, up from $\$ 12.1$ billion over the comparable period in'21, according to the latest data from Dodge Data \& Analytics. Nonresidential activity increased from \$4.4 billion, to $\$ 6.0$ billion and residential activity from $\$ 7.7$ billion to $\$ 8.8$ billion.

Crude Oil - The closing spot price for West Texas Intermediate (WTI), the U.S. benchmark for light, sweet crude, averaged $\$ 93.67$ per barrel in August ' 22 , up from $\$ 67.73$ for the same period in '21. WTI has consistently traded above $\$ 90$ per barrel since early February '21. The U.S. Energy Information Administration forecasts WTI to average $\$ 98.07$ per barrel this year and \$90.91 in '23.

Home Sales - In the 12 months ending August, Houston area realtors closed on 128,869 homes, compared to 130,767 for the 12 months in July, and 132,887 for the 12 months ending in June. In August '22, active listings of all property types (single-family, townhomes, condos, duplexes) were up 25.1 percent over August of ' 21 . They are still 17.7 percent below where they stood five years ago.

Inflation - Inflation, as measured by the Consumer Price Index for all Urban Consumers (CPI-U), rose 8.3 percent nationwide in the 12 months ending August ' 22 . This has come down from a peak in June ' 22 of 9.1 percent. The peak of the last 50 years was in March ' 80 when the annual rate topped 14.6 percent.

Purchasing Managers Index - Economic activity in Houston expanded in August at a slightly slower rate than July, according to the most recent Houston Purchasing Managers Index (PMI). The August ' 22 PMI registered 54.2, down from 55.6 in July. Readings over 50 generally indicate expansion in the economy, below 50, contraction.

Rig Count - The Baker Hughes count of active domestic rotary rigs hit 765 the last week of September, up 237 rigs from the same week the year before, according to data recently released by the company. The rig count is 28 shy of where it stood in midMarch ' 20 prior to the pandemic. However, the rig count peaked at 1,083 the last week of December ' 18 . The pandemic only accelerated the decline.

Unemployment - The unemployment rate for metro Houston was 4.6 percent in August ' 22 , down from 4.8 percent in July ' 22 and from 6.3 percent in August ' 21 . The Texas rate was 4.2 percent, down from 4.3 percent in July and 5.5 percent in August of last year. The rates are not seasonally adjusted.

Vehicle Sales - New car, truck, and SUV sales are up 9.7 percent through August of this year compared to the same period in ' 21 . Truck and SUV sales continue to dominate the market, accounting for one in four ( 77.6 percent) of all vehicles sold to date.

## SITE DATA AND ANALYSIS

An analysis of the subject site is particularly important in determining its highest and best use. We have relied on the legal description\%aerial photos\%WCAD tax map\%and a thorough physical property visit of the subject. The following is a discussion of the most important facts.

Legal Description: 25.132 acres or $12094 \% 50$ square feet of land being Lot $1 \%$ Clear Creek Development\%Naller County\%exas.

Location/Access: The subject property is located within city limits of the City of Hempstead\%which is an incorporated part of Waller County\%Texas. Specifically\%the subject property is situated along the south line of Mack Washington Lane\%eing just north of Business US 290 !Old Hempstead Highway". Furthermore\%/he subject is located approximately 1.50 miles east of State Highway 6!SH 6".

Physical Characteristics: The subject site is rectangular in shape and contains a total of 25.132 acres or $1 \% 094 \% 50$ square feet of land !size per WCAD".

Zoning/Land Use: The subject is located in the City of Hempstead within Waller County\% which Hempstead does subscribe to zoning. The subject property is zoned "Agriculture Residential" by the City of Hempstead\%which allows for a variety of agriculture and commercial uses. There are no known deed restrictions\%r other known restrictions as to use or value.

Floodplain: According to the flood insurance rate map of the Federal Emergency Management Agency\%revised May 16\%2019\%FEMA Map No. 48473C0135F\%the subject lies within Zone X\%an area outside the $500 \& e a r$ and $100 \& e a r$ floodplains. A copy of the floodplain map follows this section. Please refer to the caution statement at the bottom of floodplain map.

Environmental Concerns: An environmental survey for the subject property was not provided. It is assumed that no adverse environmental or geologic conditions exist\%ut this should be checked with appropriate professionals.

Topography/Drainage: Upon inspection\%the subject site appears to be level and well drained. Drainage of the subject site is facilitated by natural site drainage to open ditch drainage along bordering roadway rights of way. Drainage of the area is under the control of Waller County and appears adequate as evidence by the existing improvements in the immediate vicinity.

Easements and Covenants: The subject has no known easements or restrictions which would be considered to adversely affect utilization of the subject site. There are utility easements common to properties in the area.

Utilities/Education/Public Services The subject does have access to water and sewer via the City of Hempstead. Electricity is distributed by CenterPoint Energy\% 2 nd telephone is available through several national providers. In addition\%able television and high speed internet service are readily available through a variety of area providers.

Police\%fire\%and emergency services are provided by Waller County. Education is provided by the Hempstead Independent School District\%which provides secondary education through the high school level ! Kindergarten through the $12^{\text {th }}$ grade".

Conclusion: The subject has good access to primary traffic arteries and all portions of the greater Houston area. The site is a sufficient size to support a number of possible uses\%and does not appear to be encumbered by any easements or encroachments that would affect value or use. The subject represents a good developable site with fair accessibility and amenities.

## FLOOD MAP

## HIGHEST AND BEST USE

Highest and best use is defined as "the reasonably probable and legal use of vacant land or an improved property\%which is physically possible\%appropriately supported\%inancially feasible\% and that results in the highest value"! The Dictionary of Real Estate AppraisaP/6th Edition". The definitions of highest and best use indicate that there are two types of highest and best use. The first type is highest and best use of land or a site as though vacant. The second is highest and best use of a property as improved. Each type requires a separate analysis. Moreover\%n each case\%he existing use may or may not be different from the site s highest and best use.

Legally Permissible: In all cases of highest and best use\%he appraiser must determine the uses of the site which are legally permissible. The subject is located in the City of Hempstead within Waller County\%which Hempstead does subscribe to zoning. The subject property is zoned "Agriculture Residential\% which allows for a variety of agriculture or commercial development. Beyond building code requirements\%/here appear to be no legal impediments to the subject use or value.

Physically Possible: Size/derrain\%shape with respect to development\%/surrounding uses\% and utility availability are generally considered the most important in determining uses to which the subject may be developed. The subject site contains a total of 25.132 acres or $1 \not 204 \% 50$ square feet of vacant land. The subject has access to public water and sewer. The subject tract is of a size and shape that could accommodate a number of uses. Considering the size and location of the subject\%the most likely physical uses would be for some type of commercial development as demand warrants.

Financially Feasible: This criterion dictates that the use must create value and generate a positive net income. Factors which influence feasible uses include those considered other than legally permissible and physically possible uses\%s well as economic factors relating to rental rates and occupancies of the various real estate sectors. In other words\% property s financial feasibility is based on its income potential.

Maximally Productive: In considering the maximally productive uses\%he comparison of all uses determined to be physically possible\%legally permissible\%and financially feasible are evaluated. The maximally productive use produces the highest rate of return or the highest value to the property. Generally\%t is viewed as the ideal improvement. There are few if any uses which create a greater return to the land than some type of commercial use.

As Vacant: Based on a review of financial information\%t is our opinion that the highest and best use of the property "as vacant\% is for commercial use.

## SALES COMPARISON APPROACH

The sales comparison approach is a set of procedures in which a value indication is derived by comparing the property being appraised to similar properties that have been sold recently, applying appropriate units of comparison, and making adjustments to the sales prices of the comparables based on the element of comparison. The sales comparison approach may be used to value improved properties, vacant land or land being considered as though vacant.

The sales comparison approach is applicable when sufficient data on recent market transactions is available. Essential information on income-producing properties derived through sales comparison is used in the income capitalization and cost approaches.

The procedure for applying the sales comparison approach includes the following:

1. Research the competitive market for information on properties that are similar to the subject property and that have recently sold, are listed for sale, or are under contract. Information on agreements of sale, options, listings, and bona fide offers may also be collected. The characteristics of the properties such as property type, date of sale, size, physical condition, location, and land use constraints should be considered. The goal is to find a set of comparable sales or other evidence such as property listings or contracts as similar as possible to the subject property to ensure they reflect the actions of similar buyers. Market analysis and highest and best use analysis set the stage for the selection of appropriate comparable sales.
2. Verify the information by confirming that the data obtained is factually accurate and that the transactions reflect arm's-length market considerations. Verification should elicit additional information about the property such as buyer motivation, economic characteristics (if the property is incomeproducing), value component allocations, and other significant factors as well as information about the market to ensure that comparisons are credible.
3. Select the most relevant units of comparison used by participants in the market (e.g., price per acre, price per square foot, price per front foot, price per dwelling unit) and develop a comparative analysis for each unit. The appraiser's goal is to define and identify a unit of comparison that explains market behavior.
4. Look for differences between the comparable sale properties and the subject property using all appropriate elements of comparison. Then adjust the price of each sale property, reflecting how it differs, to equate it to the subject property or eliminate that property as a comparable. This step typically involves using the most similar sale properties and then adjusting for any remaining differences. If a transaction does not reflect the actions of a buyer who would also be attracted to the subject property, the appraiser should be concerned about comparability.
5. Reconcile the various value indications produced from the analysis of comparables into a value conclusion. A value opinion can be expressed as a single point estimate, as a range of values, or in terms of relationship (e.g., more or less than a given amount).

There are 10 basic elements of comparison that should be considered in sales comparison analysis:

1) Real Property rights conveyed
2) Financing terms
3) Conditions of sale
4) Expenditures made immediately after the purchase
5) Market conditions (time)
6) Location
7) Physical characteristics - e.g., size, construction, quality, condition
8) Economic characteristics - e.g., expense ratios, lease provisions, management, tenant mix
9) Legal characteristics
10) Non-realty components of value
(The Appraisal of Real Estate, 15th Edition, pg. 362).

## SITE VALUATION

The sales comparison approach utilizes sales transactions of area properties considered comparable to most characteristics of the subject site. The most basic requirement is that the comparable sales are located within proximity to the subject neighborhood and have occurred in the open market in the recent past. This analysis was conducted within the framework of the definition of market value\%s described within the report. It requires a valuation of the site\% as vacant"\%s in its highest and best use.

In order to develop a value estimate for the subject tract\%he deed records of Waller County were searched through a deed reporting service\%and the area was surveyed for sales of comparable tracts.

Included within this section are five comparable sales of vacant land tracts\%which are considered to be comparable to the subject in the immediate neighborhood. The sales included for comparison within this section are the most comparable sales to the subject property and are the most recent sales occurring within the immediate neighborhood. Based on the quality and quantity of the data\%ur confidence level in the land sales comparison approach is high. The sales are described in detail on the land sale comparable forms\%which immediately precede this section. Additionally\% sales map is included in the preceding pages\%nd the sales map contains a representation of the size\%hape\%nd location of each sale in relation to the subject property.

Adjustment Factors: The methodology for this approach is the employment of an adjustment grid\%a copy of which follows this section and also acts as a summary of the land sales and the basic subject information. No financial adjustments have been necessary. The following paragraphs discuss the adjustments and make the comparisons with the subject site.

Conditions of Sale: This adjustment takes into consideration unusual features of the transaction\%such as unusual influences among the sale parties\%existing improvements on the sales at the date of the transaction\%or whether or not the sale took place under open market conditions. No adjustments are necessary.

Market Conditions!Time": The market condition!time" adjustment is considered and the lack of sales activity in some real estate sectors may point to the need for this adjustment. The comparable sales included within this analysis occurred during the previous 2 years. The current COVID\&19 outbreak is considered; however\%ndications are the subject market segment that has remained steady. Sales $3 \% \%$ nd 5 are adjusted upward for market conditions.

Size: While the sales at least demonstrate the principle that a smaller site will sell for more per square foot than a larger one\%dhere is insufficient comparability and numbers from which to draw a meaningful adjustment factor. However\%/years of pairing studies throughout the Gulf Coast area suggest a safe average comparison of $5 \%$ to $10 \%$ per doubling or halving in size
by comparison with the subject 25.132 \&acre site size. The appraiser will analyze the sales based on a $10 \%$ per doubling rounded to the nearest $5 \%$. Sales 2 and 3 are adjusted downward for their smaller site size as compared to the subject. Sales 1 and 4 are adjusted upward for their larger site size as compared to the subject. Overall net adjustments may be found on the adjustment grid.

Location: Location adjustments are primarily subjective to the appraiser\%ased upon experience\%knowledge of the various markets involved\%and on inspections of the properties presented. Sales $1 \% \% \%$ \%nd 5 are adjusted downward for their superior location as compared to the subject.

Floodplain: Floodplain designations affect the utilization of each tract\%and thus affect value. The subject is located in the Zone X Floodway. No adjustments were made.

Physical Characteristics: This adjustment considers corner influence\% utilities\% detention\%and shape. The subject has access to public water and sewer through the city of Hempstead. Sales $1 \% \% \%$ and 5 are adjusted upward for having inferior access to utilities.

Conclusion: The adjusted sale prices range from $\$ 0.79$ to $\$ 1.40$ per square foot with a mean of $\$ 1.06$ and a median of $\$ 1.01$ per square foot. Thus the value for the subject is concluded to $\$ 1.05$ per square foot or $\$ 1 \% 49 \% 88 \%$ ounded to:

Note: This appraisal order is not transferrable to another appraiser. If the appraiser named on this appraisal request is unable to complete this assignment please contact Appraisal MC at 713-623-0559. All appraisers are approved on an individual basis, if this assignment is completed by another appraiser Appraisal MC will not be liable for any appraisal related service fee.

## Sappraisal ${ }^{\text {mc }}$

Commercial Order Form
client

* If a client of Appraisal MC or lender makes contact with you directly, contact Appraisal MC immediately. Do NOT make contact with the client of Appraisal MC or lender directly unless otherwise specified in the order. Any contact outside of the Appraisal MC system may be cause for removal and forfeit of appraisal fee due to non-compliance with the appraiser agreement. All communication and reports must be sent through Appraisal MC only. Failure to comply with this request will result in this order being cancelled and payment for this order will be rescinded immediately.

Appraiser agrees not to directly or indirectly engage via communication or assignments with any of Appraisal MC's lender clients for a period of one year without written consent of Appraisal MC. Appraiser agrees to provide reasonable monetary damages for violation of this Agreement; and, that if monetary damages are calculable, monetary damages alone are inadequate as a remedy for such violation. Therefore, the parties agree that equitable remedies, including, without limitation, temporary restraining order and mandatory injunction enforcing specific performance, are and shall be proper remedies for violation of this Agreement. If suit is brought to enforce this Agreement, the winning party shall be entitled to receive, in addition to any actual damages, reasonable attorney(s) fees spent in the prosecution of such suit.

APPRAISAL MC RESERVES THE RIGHT TO DISCOUNT FEE OF PAST DUE REPORTS BY \$50 PER DAY IF NO NOTIFICATION IS RECEIVED. COMPLETED APPRAISALS MUST BE SUBMITTED BY 2 PM CST ON THE DUE DATE.

IF A RUSH/PRIORITY ASSIGNMENT IS NOT SUBMITTED ON OR BEFORE THE DUE DATE THE RUSH/PRIORITY ADDITIONAL FEE WILL BE FORFEITED.

## ANY REVISIONS MUST BE SUBMITTED THE SAME BUSINESS DAY OTHERWISE THE ASSIGNMENT WILL BE CONSIDERED LATE.

## Trip Fee Policy:

Trip fees for scheduled appointments are not to exceed $\$ 150$ unless otherwise approved. A photo of the subject property with address must be provided for verification

Trip fees may be forfeited for the following reasons:

- If the assignment is not submitted on or before the due date and the order is cancelled due to appraiser delays.
- Cancelled orders not submitted on or before the due date
- Assignments that have been withdrawn from

## Cancellation policy:

Pre-Inspect: 0\%
Post-Inspect based on appt time in system: Fee not to exceed \$150 unless otherwise approved Completed report: 100\%

## Cancellation fees may be forfeited for the following reasons:

- If the assignment is not submitted on or before the due date and the order is cancelled due to appraiser delays.
- Cancelled orders not submitted on or before the due date
- Assignments that have been withdrawn from
(Please note that any cancellations will come via message from Appraisal MC)
TEXAS APPRAISERS: If you are an appraiser licensed or certified in Texas you must accept the TALCB invite prior to accepting any assignments from Appraisal MC. Do not accept any assignments or begin work on any assignments and contact Appraisal MC immediately. Appraisal MC will not be responsible for any work completed by an appraiser not active on the Appraisal MC TALCB panel.
